STRENGTHS

- 🚒 **Emergency response**
During medical and fire calls, applied EMT B judgment and clear radio updates so teams could act with confidence.
- ✈️ **Aircraft ground service**
Handled fueling, marshalling, parking, and deicing carefully. Pilots and ground teams received dependable ramp support.
- 🔧 **Equipment readiness**
Routine apparatus and tool checks caught small issues early. That habit kept assigned equipment ready for service.
- 🔍 **Safety inspection**
Airfield walks turned observations into useful reports on debris, gates, lighting, pavement, and access conditions.
- 🗣️ **Team communication**
Clear radio traffic and direct coordination helped pilots, responders, and operations personnel work from shared information.

Security Checks

Radio Communications

SUMMARY

Airport emergency services and aircraft ground operations professional with four years supporting ARFF readiness, structural firefighting, EMT response, **aviation fueling**, airfield inspections, and ramp safety. Holds Missouri EMT-B, **IFSAC Firefighter I** and II, 40 hour **Aircraft Rescue Firefighting training**, and **Class B CDL** credentials with tank and hazmat endorsements. Provides careful aircraft fueling, deicing, marshalling, parking security, fuel quality control, radio communications, and emergency response across active aviation environments. Conducts inspections, preventive maintenance, minor repairs, and equipment readiness checks that support safe operations. Works smoothly with pilots, airline personnel, airport teams, emergency responders, and the public. Brings practical judgment around aircraft, specialized apparatus, winter equipment, and hazardous materials, helping airport operations remain prepared, secure, and dependable.

EXPERIENCE

Aircraft Rescue Firefighter, Aircraft Services Specialist

Heartland Aviation Response 📅 May 2024 - Present 📍 Kansas City, MO

Support active aviation operations through ARFF readiness, aircraft servicing, emergency response, airfield safety, communications, inspections, and equipment upkeep. Coordinate with pilots, ground personnel, and operations staff while protecting people, aircraft, facilities, and service continuity.

- Maintained **ARFF** readiness through apparatus checks, ramp awareness, fueling controls, and radio communications.
- Operated aviation **fueler trucks** under quality controls, verifying product condition and transfer **equipment readiness**.
- Marshaled arriving aircraft into parking positions, then secured aircraft with pilots and ground personnel.
- Responded to medical calls and fire events using EMT B practices and ARFF tactics.
- Inspected airfields and parking areas, reporting pavement, lighting, gate, debris, and security concerns.
- Completed **preventive maintenance** on apparatus, fueling equipment, tools, and **winter operations equipment**.

Firefighter, EMT B

Midwest Regional Fire District 📅 October 2022 - April 2024 📍 Independence, MO

Delivered structural firefighting and **emergency medical response** across varied incidents while building disciplined scene judgment, equipment control, communications, and hazardous materials awareness. Supported apparatus readiness through inspections, maintenance, drills, and accurate patient handoffs.

- Delivered **structural firefighting** and EMT B response across residential, commercial, vehicle, and hazardous incidents.
- Operated fire apparatus, radios, **hand tools**, **power tools**, and rescue equipment during incident command assignments.
- Inspected apparatus and equipment, correcting routine deficiencies before units returned to service.
- Applied hazardous materials awareness during fuel spills, vehicle incidents, and flammable liquid scenes.
- Assessed patients within EMT B scope, documenting information and transferring care accurately to providers.
- Completed live fire, rescue, and team response training with disciplined protective equipment use.

Aircraft Ground Services Technician

MY CAREER

● Aircraft Rescue Firefighter, Aircraft Services Specialist at Heartland Aviation Response (2.3 Years)

● Firefighter, EMT B at Midwest Regional Fire District (1.5 Years)

● Aircraft Ground Services Technician at Gateway Flight Services (1 Years)

Supported general aviation ramp operations through **aircraft marshalling**, parking, fueling support, deicing, security checks, fuel records, quality control, communications, and basic equipment upkeep. Helped maintain safe service flow during rotating airport operations.

- Supported general aviation aircraft through marshalling, parking, securing, fueling support, and winter deicing.
- Recorded fuel receipts and inventory movements, checking delivery documents before storage transfer.
- Inspected hoses, nozzles, bonding equipment, and service vehicles before operational use.
- Coordinated aircraft movements through radio communication with pilots and airport operations staff.
- Completed ramp and gate **security checks**, reporting access, debris, and facility conditions.
- Performed facility upkeep with hand and **power tools**, supporting dependable airport service.

PROJECTS

Airport Fuel Quality Program 📅 2024

Supported a fuel quality program linking delivery records, daily inventory, sampling, equipment checks, and safe aircraft service. Reliable fuel control protects crews, passengers, and every operation relying on dependable aviation service.

Winter Ramp Readiness Initiative 📅 2023

Strengthened winter ramp readiness through deicing support, equipment checks, airfield observations, and clear radio coordination. Safe movement begins with prepared people, serviceable equipment, and attention to small hazards.

LEADERSHIP & AWARDS

- Recognized for dependable ARFF readiness and consistent emergency apparatus inspections during active aviation operations.
- Selected for trusted aircraft ground service work involving fueling, marshalling, deicing, and ramp security.
- Commended for calm radio communication and accurate EMT B support during emergency response activities.

EDUCATION

Associate of Applied Science in Fire Science

Metropolitan Community College 🎓 GPA: 3.5 📅 2021 📍 Kansas City, MO

Coursework: Fire behavior, emergency medical response, hazardous materials, fire apparatus operations

CERTIFICATIONS

- Missouri EMT B Certification 📅 2022
- IFSAC Firefighter I and II 📅 2022
- 40 Hour Aircraft Rescue Firefighting Training 📅 2024
- Class B Commercial Driver License, Tank and Hazmat Endorsements 📅 2024

TECHNICAL SKILLS

- **Aircraft Operations:** Aircraft fueling, aircraft deicing, aircraft marshalling
- **ARFF Equipment:** ARFF vehicles, emergency apparatus, rescue equipment
- **Firefighting:** IFSAC Firefighter I, IFSAC Firefighter II, structural firefighting
- **Emergency Medical:** Missouri EMT B, medical assessment, emergency care
- **Fuel Handling:** Fueler trucks, bulk storage transfer, fuel inventories
- **Fuel Quality:** Quality control testing, fuel sampling, delivery records
- **Airfield Safety:** Airfield inspections, foreign object checks, pavement observations
- **Airport Security:** Aircraft parking checks, gate checks, access reporting
- **Communications:** Two way radios, emergency communications, incident communications
- **Vehicle Licensing:** Class B CDL, tank endorsement, hazmat endorsement
- **Maintenance Tools:** Hand tools, power tools, minor repairs

- **Winter Operations:** Winter equipment, deicing support, cold weather readiness

PROFESSIONAL AFFILIATIONS

- Fire service professional network participant focused on emergency response readiness and continuing technical development.
- Airport operations community participant supporting aviation safety, aircraft service quality, and secure ramp practices.
