

Jaxon Beltran

Assembler

AUGUST 09, 2026

Hiring Manager
Aerotek
Jacksonville, FL

Dear Hiring Manager,

I am eager to apply for the Wire Assembler role at Aerotek due to its alignment with my experience and passion for assembly. This position stands as a golden opportunity for me to utilize my skills effectively and contribute significantly.

Understanding the key responsibilities involved in this role, I realize this job connects with Aerotek's objectives. Crafting and wiring various electrical components echoes your mission to provide top-notch engineering solutions.

At Tech Assembly Solutions, I was tasked with assembling over 500 electrical components, which taught me the importance of quality and efficiency. I sought to keep pace in a fast-moving environment, embracing challenges while collaborating to boost production efficiency.

Striving for improvement often involved reading blueprints and complex diagrams. Occasionally, I faced difficulties, yet I pushed through, realizing each challenge sharpened my skills. I understand how crucial these tasks are for achieving the expected standards in manufacturing.

I believe my hands-on experience and willingness to learn resonate with your wish for an efficient team member. With my exposure to both hand and power tools, I aim to add value to your assembly process while fostering a sense of teamwork.

I genuinely appreciate the opportunity to apply. I am excited to discuss how my background, skills, and enthusiasms can fit within Aerotek. Let's connect at your earliest convenience.

Thank you,

Sincerely,

Jaxon Beltran
