STRENGTHS

- 🔧 **Diagnostic troubleshooting**
Uses schematics and test equipment to trace starting, charging, lighting, and accessory faults. A clear test path keeps repairs focused.
- 📅 **Fleet prioritization**
Schedules preventive work around equipment availability and service priorities. That approach keeps needed vehicles moving during busy periods.
- ⚙️ **Equipment versatility**
Moves comfortably from sedans and pickups to mowers, pumps, generators, and small machinery. Each repair adds useful range.
- 💬 **Repair communication**
Explains findings and repair steps clearly in English and Spanish. Junior technicians have a practical resource during difficult jobs.
- ♥️ **Safety discipline**
Works carefully around heat, fumes, moving parts, noise, and outdoor conditions. Safe preparation remains part of every repair.
- 💡 **Hands on adaptability**
Adapts tools and compatible parts when equipment presents an unusual fault. That practical mindset supports timely service decisions.

SKILLS

Preventive maintenance

Gasoline engines

Automotive wiring

Mechanical diagnosis

Hydraulic systems Brake repair

Suspension systems

SUMMARY

Automotive mechanic with five years of hands on experience maintaining gasoline vehicles, light trucks, mowers, generators, pumps, and small machinery in fleet and service settings. Performs **preventive maintenance**, mechanical diagnosis, **automotive wiring** tests, brake and suspension repairs, cooling and ignition service, drivetrain work, hydraulic troubleshooting, and tire repair. Uses schematics, service information, **automotive tools**, and shop machinery to isolate faults and restore dependable equipment operation. Experience includes transmissions, differentials, clutches, axle assemblies, fuel systems, valves, pistons, bearings, **air compressors**, and pumps. Works safely around moving parts, hot components, fumes, noise, outdoor conditions, and confined work areas. Communicates clearly in English and Spanish, guides junior technicians through repair steps, organizes work around service priorities, and supports reliable fleet availability through careful inspections and repair verification.

EXPERIENCE

Automotive Mechanic

Hill Country Fleet Works 📅 July 2023 - Present 📍 San Antonio, Texas

Supports gasoline sedans, pickups, utility trucks, mowers, and small machinery across fleet maintenance operations. Organizes preventive service around equipment availability, diagnoses electrical and mechanical faults, completes repairs, and guides junior technicians through safe verification steps.

- Scheduled **preventive maintenance** around fleet availability, preserving dependable access to gasoline vehicles and grounds equipment.
- Diagnosed starting, charging, lighting, and accessory faults with wiring diagrams and **electrical** testing equipment.
- Repaired **brakes**, steering, suspension, cooling, **ignition**, fuel, axle, and spring components using safe procedures.
- Troubleshoot **hydraulic** circuits, pumps, hoses, and grounds equipment components, restoring field service availability.
- Inspected, repaired, mounted, and replaced tires across passenger, truck, and equipment applications.
- Guided junior technicians through inspections, tool selection, and **repair** verification in English and Spanish.

Automotive Service Technician

Alamo Automotive & Equipment Service 📅 October 2022 - June 2023 📍 New Braunfels, Texas

Completed service and repair work on gasoline cars, light trucks, mowers, generators, and small equipment. Used schematics, scan information, teardown procedures, compatible parts, and safe shop practices to support sound repair decisions and dependable equipment operation.

- Completed **preventive maintenance** on gasoline cars, **light trucks**, mowers, generators, and small equipment.
- Diagnosed drivability, ignition, fuel, cooling, and electrical concerns through schematics, scan data, and testing.
- Serviced **clutches**, **differentials**, axle assemblies, and transmission components using documented teardown procedures.
- Repaired **generators**, water pumps, air compressors, and small engines with compatible parts and tools.
- Inspected **pistons**, valves, bearings, and brake assemblies during teardown, documenting findings for repair decisions.
- Applied safety practices around lifts, moving machinery, hot components, and airborne particles during repairs.

MY CAREER

- Automotive Mechanic at Hill Country Fleet Works (3.2 Years)
- Automotive Service Technician at Alamo Automotive & Equipment Service (8 Months)
- Automotive Maintenance Technician at Mission Road Auto Service (11 Months)

Automotive Maintenance Technician

Mission Road Auto Service 📅 October 2021 - September 2022 📍 San Antonio, Texas

Performed scheduled maintenance and repair preparation for gasoline vehicles and light trucks in a busy automotive service environment. Built practical skill with inspections, schematics, tire service, shop machinery, parts preparation, and clear repair documentation for orderly handoffs.

- Performed oil, filter, fluid, brake, tire, battery, and **cooling** system services on gasoline vehicles.
- Used service information and schematics to isolate **electrical** and **mechanical** faults before escalation.
- Inspected belts, hoses, brakes, **suspension**, steering, **tires**, and fluids for developing service needs.
- Completed tire repairs and replacements, verifying inflation, wheel condition, and safe installation.
- Prepared tools, parts, and work areas for drivetrain and engine repairs using shop **machinery**.
- Recorded repair findings clearly for supervisors, supporting orderly handoffs and follow up work.

PROJECTS

Municipal Equipment Readiness 📅 2024

Improved readiness planning for mixed fleet assets by combining preventive inspections, tire checks, electrical diagnosis, hydraulic review, and repair verification. Work centered on keeping vehicles and grounds equipment available for daily operations.

Small Engine Repair Workflow 📅 2023

Supported a practical repair workflow for mowers, generators, pumps, and small engines. Used schematics, compatible parts, teardown findings, and safety checks to return varied equipment to dependable service.

LEADERSHIP & AWARDS

- Fleet Service Recognition, acknowledged for dependable repair support and organized maintenance work.
- Technician Guidance Recognition, trusted to help junior technicians follow inspection and verification steps.
- Safety Practice Recognition, consistently applied safe procedures around machinery, vehicles, heat, fumes, and moving parts.

EDUCATION

High School Diploma

Thomas Jefferson High School 🎓 GPA: 3.0 📅 2019 📍 San Antonio, Texas

Coursework: *Automotive systems, electrical fundamentals, mechanical maintenance, workplace safety*

CERTIFICATIONS

- ASE Entry Level Automobile Maintenance and Light Repair 📅 2021
- Valid Texas Driver License 📅 2021

TECHNICAL SKILLS

- **Vehicle Systems:** Gasoline engines, light trucks, sedans
- **Electrical Systems:** Automotive wiring, charging systems, lighting systems
- **Brake Systems:** Brakes, brake axles, brake assemblies
- **Powertrain Systems:** Transmissions, differentials, clutches
- **Engine Components:** Valves, pistons, piston rings
- **Hydraulic Equipment:** Hydraulic circuits, pumps, hoses
- **Cooling And Ignition:** Cooling systems, ignition systems, radiators
- **Fuel Systems:** Fuel systems, carburetors, fuel components
- **Shop Equipment:** Automotive tools, shop machinery, lifts
- **Tire Service:** Tire inspection, tire repair, tire mounting
- **Small Equipment:** Mowers, generators, air compressors

- **Diagnostic Materials:** Wiring diagrams, schematics, service information

PROFESSIONAL AFFILIATIONS

- Automotive service teams, San Antonio area
- Fleet maintenance and equipment repair community, South Texas
