

Lorenzo Jennings

Biomedical Engineering Technician

AUGUST 16, 2026

Hiring Manager
Innovative Health Solutions
Tampa, FL

Dear Hiring Manager,

I am excited to apply for the Biomedical Engineering Technician role at Innovative Health Solutions because this position aligns wonderfully with my skills and experiences in medical equipment repair and maintenance.

When I discovered the critical responsibilities, such as ensuring equipment efficiency and collaborating with healthcare staff, I felt an undeniable connection; my career has always centered around a commitment to operational excellence in medical environments.

At my present job since June 2021, I have maintained over 200 medical devices while achieving a remarkable 95% first-time fix rate; this success stems from my relentless pursuit of knowledge in biomedical technologies.

However, I faced challenges early on in my career where troubleshooting rarely went as planned, but these hurdles forged resilience and commitment within me, ultimately shaping my effective collaboration with cross-functional teams.

Throughout my time in this field, I have trained over 50 healthcare staff on equipment use, creating a culture of safety that aligns perfectly with your company's goals, and I am fully engaged in continuous improvement of my practices.

Thank you for considering my application.

Sincerely,

Lorenzo Jennings
