Biomedical Technician II

AUGUST 16, 2026

Hiring Manager
TriMedx
Rockford, IL

Dear Hiring Manager,

I am eagerly submitting my application for the Biomedical Technician II position at TriMedx, a role that aligns seamlessly with my extensive background in clinical engineering and unwavering commitment to advancing healthcare technology.

Having spent over six years in this field, I grasp the essential responsibilities of maintaining vital biomedical gear and ensuring top-tier performance across various clinical settings, helping transform lives through reliable technology.

While working at CureMed Solutions, I ensured the successful completion of performance assurance inspections and electrical safety checks, fostering productive collaboration with clinical staff to enhance equipment functionality and operational efficiency.

In addition to my practical experience, I bring a degree in Electronics Engineering along with regulatory compliance expertise—essentials in keeping a hospital's medical equipment functioning seamlessly.

I truly understand how integrity in data and regulatory adherence informs improved patient care, allowing clinical teams to work effectively alongside technicians like myself.

I appreciate your consideration.

Thanks,

Dae Price
