

Liliana Schwartz

Cancer Research Specialist

AUGUST 16, 2026

Radon Health Institute
Cancer Research Specialist
Madison, WI

Dear Hiring Committee,

I am excited to apply for the Cancer Research Specialist role at Radon Health Institute. This position is ideal as my MD/PhD equips me with a unique blend of skills vital for advancing cancer biology.

Working at the Radon Health Institute is a chance to align my passion with your groundbreaking research. Establishing innovative laboratory programs and pushing boundaries in cancer therapeutics truly resonates with my life's work.

During my tenure at Radon Health Institute, I launched initiatives focused on DNA damage mechanisms. Collaborating within interdisciplinary teams, I found joy in translating complex research findings into actionable insights.

Additionally, my previous role at the University of Wisconsin sharpened my abilities. Conducting experiments on angiogenesis helped hone my problem-solving skills. I truly enjoy mentoring students, guiding their research, and teaching on oncology topics.

Approaching challenges with a blend of skepticism and curiosity has been part of my process. I strive to learn and adapt, ensuring a focus on impactful research outcomes that benefit the field.

I welcome the chance to discuss how my background fits your team's goals.

Thanks,

Liliana Schwartz
