STRENGTHS

-  **Independent execution**
Field conditions often change. Interprets needs, chooses practical methods, and carries repairs through completion with limited supervision.
-  **Structural repair judgment**
When damaged wood appears during renovation, identifies sound replacement methods and restores dependable support without unnecessary rework.
-  **Finish quality**
Careful fitting of trim, doors, casework, and custom pieces helps occupied facilities regain function and a finished appearance.
-  **Helper coordination**
Larger assignments run more smoothly when staging, preparation, cleanup, and installation support receive clear direction onsite.
-  **Practical material handling**
Moves varied materials between locations, keeps tools organized, and treats safe lifting as part of quality workmanship.

SKILLS

- Rough Carpentry Finish Carpentry
- Structural Woodwork Framing
- Wood Repair Construction
- Alteration Facility Repair
- Layout and Measurement
- Material Selection
- Hand and Power Tools
- Helper Direction Material Handling
- Jobsite Coordination
- Work Completion

SUMMARY

Skilled carpenter with five years of progressive experience delivering rough and **finish carpentry** for facility renovations, **structural woodwork**, repairs, and custom wooden components. Hands on capability includes layout, framing, installation, alteration, material selection, field problem solving, and work completion across occupied and active facilities. Interprets work orders and site conditions, selects practical methods and materials, and maintains accurate measurements from preparation through final installation. Independently completes assignments with **limited supervision** while coordinating maintenance staff, other trades, and carpenter helpers when projects require added support. Experienced with public facing facilities, commercial properties, multi site maintenance, safe material handling, jobsite organization, and varied lifting requirements. Holds a valid Hawaii driver's license and brings dependable craftsmanship to **construction**, alteration, and repair work.

EXPERIENCE

Carpenter, Facility Services

Pacific Crest Facility Services  July 2024 - Present  Hilo, HI

- Supports public facing and commercial facilities through independent rough and **finish carpentry**, structural repairs, alterations, custom fabrication, and coordinated work with helpers and other trades.
- Completed structural wood repairs, partitions, doors, trim, casework, and wooden components across active facilities.
 - Translated work orders into **repair** plans using verified dimensions, materials, fastening **methods**, and work sequencing.
 - Replaced damaged framing in occupied facilities while coordinating access and timing with maintenance personnel.
 - Fabricated replacement wood components when standard parts failed, restoring function and finished appearance.
 - Directed **helpers** through staging, preparation, cleanup, and installation support during larger carpentry assignments.
 - Transported tools and **materials** between sites using a **valid driver's license** and safe lifting practices.

Carpenter, Building Renovation

Island BuildWorks  June 2021 - June 2024  Kailua Kona, HI

- Delivered rough and finished carpentry for renovation and **repair** projects, advancing from supervised layout work to independent assignments involving framing, structural replacement, finish installation, and project closeout.
- Performed rough and finished carpentry across interior and exterior renovation assignments with increasing independence.
 - Built wall framing, blocking, wood assemblies, trim, doors, and custom components for existing conditions.
 - Diagnosed deteriorated structural wood, removed affected sections, and installed sound replacement components.
 - Coordinated sequencing with electrical, plumbing, painting, and maintenance work during multi trade renovations.
 - Selected lumber, sheet goods, fasteners, and finish materials using verified field dimensions and task requirements.
 - Moved varied materials, organized tools, and completed punch list repairs supporting timely space turnover.

PROJECTS

Public Facility Woodwork Renewal  2025

LANGUAGES

English	Native
Hawaiian	Beginner

MY CAREER

- Carpenter, Facility Services at Pacific Crest Facility Services (2.2 Years)
- Carpenter, Building Renovation at Island BuildWorks (3 Years)

Renewed damaged structural wood, doors, trim, and custom components across occupied facilities, balancing safe access, durable repairs, and dependable finished results.

Renovation Carpentry Coordination 📅 2024

Coordinated framing, blocking, finish work, and trade access during renovation assignments, helping existing spaces return to useful service with fewer disruptions.

LEADERSHIP & AWARDS

- Trusted with independent facility repair assignments requiring sound judgment, accurate measurements, and dependable completion.
- Recognized through expanded responsibility from supervised carpentry tasks to independent renovation and repair work.
- Selected to direct helpers during larger assignments while maintaining safe staging and finished craftsmanship.
