STRENGTHS

- 💡 **Calm Crisis Response**
During urgent airway and cardiovascular events, maintained composure and clear priorities, helping teams act with confidence.
- 🗣️ **Patient Centered Communication**
Clear explanations helped patients and families feel informed, respected, and supported before and after anesthesia.
- ✅ **Precise Medication Practice**
Careful dosage checks and physiologic monitoring supported safe anesthetic delivery across demanding surgical cases.
- 👥 **Collaborative Clinical Care**
Anesthesiologists, surgeons, and nurses relied on timely updates that kept perioperative handoffs smooth.
- ⚡ **Adaptable Procedural Coverage**
Moving between operating rooms, endoscopy, Cath Lab, and interventional radiology kept care consistent.

SKILLS

Nurse Anesthesia

Pre Anesthesia Assessment

Anesthesia Administration

Airway Management

Physiologic Monitoring

Medication Dosing

Crisis Response

Perioperative Documentation

Quality Measures

Emergency Protocols

Regulatory Compliance

SUMMARY

Certified Registered Nurse Anesthetist with eight years of anesthesia practice across high acuity hospital and procedural settings. Provides comprehensive pre anesthesia assessment, individualized anesthetic planning, precise medication administration, airway management, **physiologic monitoring**, crisis response, and complete perioperative documentation. Clinical experience includes general surgery, cardiac procedures, endoscopy, neuro, obstetrics, oncology, orthopedics, robotics, spine, vascular procedures, **Level II trauma**, Cath Lab, and interventional radiology. Works effectively within **physician supervised** models, partnering with anesthesiologists, surgeons, nurses, patients, and families during complex care. Maintains active Florida APRN and RN licenses, NBCRNA certification, and current American Heart Association BLS, PALS, and ACLS credentials. Brings calm decision making, clear communication, and patient centered care to **high volume hospital** practice.

EXPERIENCE

Certified Registered Nurse Anesthetist

Gulf Meridian Medical Center 📅 July 2023 - Present 📍 Tampa, FL

Provides anesthesia care across high acuity operating rooms and procedural environments, supporting complex surgical services, urgent trauma cases, and non operating room anesthesia. Partners with anesthesiologists and multidisciplinary teams within physician oversight while protecting patient safety, documentation quality, and effective perioperative communication.

- Delivered **individualized anesthesia** for robotics, spine, vascular, **oncology**, and urgent trauma procedures.
- Completed **pre anesthesia assessments** and coordinated plans with anesthesiologists and procedural teams.
- Managed induction, maintenance, emergence, airway care, fluids, medication dosing, and physiologic monitoring.
- Covered endoscopy, **interventional radiology**, **Cath Lab**, and operating room procedures safely.
- Coordinated patient handoffs with surgeons, nurses, recovery staff, patients, and families.
- Applied ACLS, PALS, BLS, **emergency protocols**, quality measures, and institutional standards during crises.

Certified Registered Nurse Anesthetist

Coastal Bay Surgical Hospital 📅 August 2020 - June 2023 📍 St. Petersburg, FL

Delivered anesthesia across busy surgical and procedural services, including **obstetrics**, **general surgery**, orthopedics, endoscopy, and vascular care. Managed focused assessments, medication administration, emergency response, clinical records, and communication during demanding operating schedules.

- Provided anesthesia for obstetric, general surgery, orthopedic, **endoscopy**, and **vascular** cases.
- Completed focused assessments and individualized plans for adult, obstetric, and pediatric patients.
- Administered anesthetic agents while tracking **dosage**, airway status, hemodynamics, and recovery goals.
- Responded to airway and cardiovascular instability using emergency protocols during urgent cases.
- Maintained anesthesia records, medication documentation, handoffs, and quality measure data.
- Raised **patient safety** concerns clearly during high volume operating days and team huddles.

Certified Registered Nurse Anesthetist

Sunstate University Hospital 📅 July 2018 - July 2020 📍 Gainesville, FL

Provided supervised anesthesia care for general, neurological, oncology, orthopedic, and endoscopic procedures in an academic hospital environment. Combined comprehensive assessment, safe anesthetic delivery, professional standards, patient communication, and crisis preparation across varied surgical populations.

MY CAREER

● Certified Registered Nurse Anesthetist at Gulf Meridian Medical Center (3.2 Years)

● Certified Registered Nurse Anesthetist at Coastal Bay Surgical Hospital (2.8 Years)

● Certified Registered Nurse Anesthetist at Sunstate University Hospital (2 Years)

● Student Registered Nurse Anesthetist at Central Florida Academic Medical Center (1.1 Years)

- Delivered supervised anesthesia for general, neurological, **oncology**, orthopedic, and endoscopic procedures.
- Evaluated histories, laboratory findings, airway characteristics, medications, and procedural requirements before care.
- Performed induction, maintenance, emergence, and post anesthesia transfer while monitoring physiologic response.
- Applied infection prevention practices, medication checks, professional standards, and institutional policies.
- Explained perioperative care clearly to patients and families during stressful clinical encounters.
- Strengthened **crisis management** through complex cases, emergency simulations, and supervised clinical review.

Student Registered Nurse Anesthetist

Central Florida Academic Medical Center 📅 May 2017 - June 2018 📍 Orlando, FL

Completed supervised **nurse anesthesia** rotations across surgical, obstetric, endoscopic, and trauma related services. Supported preoperative assessment, airway management, medication administration, physiologic monitoring, electronic documentation, simulation training, and safe recovery handoffs under experienced clinical supervision.

- Completed supervised rotations across **general surgery**, obstetrics, **orthopedics**, endoscopy, and trauma services.
- Presented preoperative assessments and anesthetic plans to supervising CRNAs and anesthesiologists.
- Practiced airway management, medication administration, **physiologic monitoring**, emergence, and recovery handoffs.
- Documented anesthesia care in electronic systems and reconciled records with program standards.
- Applied **BLS**, ACLS, and **PALS** principles during simulation and supervised clinical events.
- Checked patient identity, medication dosage, equipment readiness, sterile practice, and communication standards.

PROJECTS

High Acuity Procedural Anesthesia 📅 2024

Supported coordinated anesthesia care across operating rooms, endoscopy, interventional radiology, and Cath Lab settings. Clear preparation and calm response helped protect safe procedural flow.

Perioperative Crisis Response Training 📅 2022

Applied simulation based crisis response methods for airway and cardiovascular instability. Practice strengthened communication, emergency readiness, and confidence during complex clinical events.

LEADERSHIP & AWARDS

- Recognized for dependable anesthesia care across high acuity surgical and procedural services.
- Selected for trusted collaboration with anesthesiologists, surgeons, nurses, patients, and families.
- Commended for calm crisis response, complete documentation, and patient safety practices.

EDUCATION

Doctor of Nursing Practice in Nurse Anesthesia

University of South Florida 🎓 GPA: 4.0 📅 2018 📍 Tampa, FL

Coursework: *Advanced anesthesia practice, physiology, pharmacology, clinical assessment*

Bachelor of Science in Nursing

University of Central Florida 🎓 GPA: 4.0 📅 2014 📍 Orlando, FL

Coursework: *Nursing assessment, pathophysiology, pharmacology, patient care*

CERTIFICATIONS

- NBCRNA Certification 📅 2026
- Florida APRN License 📅 2026
- Florida RN License 📅 2026
- American Heart Association ACLS 📅 2026
- American Heart Association PALS 📅 2026
- American Heart Association BLS 📅 2026

TECHNICAL SKILLS

- **Anesthesia Care:** Nurse anesthesia, anesthetic administration, anesthetic planning
- **Clinical Assessment:** Pre anesthesia assessment, airway assessment, patient history
- **Airway Management:** Airway care, induction, emergence
- **Physiologic Monitoring:** Hemodynamic monitoring, cardiac monitoring, recovery monitoring
- **Medication Practice:** Medication dosing, anesthetic selection, medication checks
- **Procedural Services:** Endoscopy, Cath Lab, interventional radiology
- **Surgical Services:** General surgery, orthopedics, obstetrics
- **Complex Case Care:** Neuro, oncology, robotics
- **Emergency Credentials:** BLS, PALS, ACLS
- **Clinical Documentation:** Anesthesia records, medication documentation, electronic systems
- **Safety and Compliance:** Quality measures, regulatory compliance, institutional standards
- **Trauma and Crisis Care:** Level II trauma, crisis response, emergency protocols

PROFESSIONAL AFFILIATIONS

- American Association of Nurse Anesthesiology member, supporting continued professional development.
- Florida Association of Nurse Anesthesiology member, participating in regional professional connection.
