STRENGTHS

- 👤 **Pediatric Nutrition**
Translated growth, intake, laboratory findings, and treatment goals into plans families could follow with confidence.
- 💓 **Nutrition Support**
Tube feeding and TPN cases called for careful review; clinical teams valued clear, timely recommendations.
- 👥 **Family Education**
Used plain language for formula preparation and therapeutic diets, helping caregivers leave with practical next steps.
- 💬 **Team Coordination**
Physicians, nurses, pharmacists, and therapists received concise nutrition guidance that fit shared care plans.
- ♥️ **Quality Improvement**
Reviewed recurring workflow gaps and turned case findings into useful education and documentation updates.

SKILLS

- Pediatric nutrition
- Ketogenic diet support
- Inpatient nutrition care
- Nutrition assessment
- Enteral nutrition Tube feeding
- Total parenteral nutrition
- Therapeutic diets
- Caregiver education

SUMMARY

Clinical dietitian with three years of **inpatient nutrition care** experience supporting pediatric and medically complex patients in acute care settings. Registered Dietitian through the **Commission on Dietetic Registration** and Florida Licensed Dietitian with a Bachelor of Science in Nutrition and Dietetics. Provides nutrition assessment, individualized care plan implementation, enteral feeding support, tube feeding management, **total parenteral nutrition** coordination, therapeutic diet guidance, and **patient and caregiver education**. Connects medical goals, nutrition requirements, tolerance, laboratory findings, and family priorities within practical plans. Collaborates with physicians, nurses, pharmacists, speech language pathologists, and case managers while documenting clear interventions and follow up needs. Contributes to quality improvement, staff education, and consistent clinical workflows. Supports caring inpatient services across pediatric and adult acute care environments and can help strengthen safe, coordinated nutrition care across hospital locations.

EXPERIENCE

Clinical Dietitian, Pediatric Inpatient Nutrition

Gulf Coast Children's Medical Center 📅 July 2024 - Present 📍 Tampa, FL

Supports pediatric inpatient nutrition services for medically complex patients, including assessment, nutrition care planning, enteral feeding, parenteral nutrition, family education, **clinical documentation**, and quality improvement. Partners with physicians, nurses, pharmacists, speech language pathologists, and case managers across **acute care** workflows.

- Translated diagnoses, growth patterns, laboratory findings, and intake into individualized **pediatric nutrition** plans.
- Adjusted **tube feeding** regimens after reviewing nutrient needs, fluid goals, tolerance, and nursing observations.
- Reviewed macronutrients, micronutrients, laboratory trends, and clinical status for coordinated **TPN** recommendations.
- Taught caregivers formula preparation, **therapeutic diets**, feeding plans, and transition instructions using clear language.
- Coordinated nutrition recommendations with physicians, nurses, pharmacists, and speech language pathologists for integrated care.
- Reviewed quality indicators and updated education materials after identifying recurring nutrition workflow gaps.

Clinical Dietitian, Acute Care Nutrition

Suncoast Regional Hospital 📅 October 2023 - June 2024 📍 St. Petersburg, FL

Delivered **inpatient nutrition care** for adult and pediatric patients across **acute care** units. Completed screenings and assessments, supported enteral and parenteral nutrition, educated patients and significant others, documented interventions, and contributed to quality reviews and staff education.

- Prioritized inpatient screenings for malnutrition risk, altered intake, and specialized nutrition support needs.
- Implemented **enteral nutrition** plans using estimated requirements, clinical status, tolerance, and nursing observations.
- Reviewed TPN requirements and laboratory data with pharmacy and medical teams before documenting recommendations.
- Counseled patients and significant others on prescribed diets and safe nutrition strategies after discharge.
- Documented assessments, interventions, monitoring plans, and follow up findings for multidisciplinary continuity.
- Used quality review cases during staff education to reinforce timely reassessment and consistent care.

MY CAREER

2.8
YEARS

● Clinical Dietitian, Pediatric Inpatient Nutrition at Gulf Coast Children's Medical Center (2.2 Years)

● Clinical Dietitian, Acute Care Nutrition at Suncoast Regional Hospital (8 Months)

PROJECTS

Pediatric Ketogenic Nutrition Pathway 📅 2025

Built a clinical reference pathway for pediatric ketogenic diet support, connecting nutrition assessment, feeding tolerance, laboratory monitoring, caregiver education, and follow up documentation.

Acute Care Nutrition Education Refresh 📅 2024

Updated patient and caregiver education materials for therapeutic diets, tube feeding, formula preparation, and transition of care across inpatient workflows.

LEADERSHIP & AWARDS

- Clinical Nutrition Quality Contributor, recognized for practical updates supporting consistent inpatient documentation.
- Pediatric Nutrition Education Lead, selected to share clear feeding guidance with caregivers and clinical staff.

EDUCATION

Bachelor's Degree in Nutrition and Dietetics

University of South Florida 🎓 GPA: 3.7 📅 2023 📍 Tampa, FL

Coursework: Clinical Nutrition, Pediatric Nutrition, Medical Nutrition Therapy, Nutrition Support

CERTIFICATIONS

- Registered Dietitian, Commission on Dietetic Registration 📅 2023
- Licensed Dietitian, Florida Department of Health 📅 2023
- Florida Driver License 📅 2023
