Commercial Real Estate Summer Analyst Program

JULY 03, 2026

Hiring Manager
Dallas Capital Group
Chicago, IL

Dear Hiring Manager,

I am excited to apply for the Commercial Real Estate Summer Analyst Program at Dallas Capital Group, which aligns perfectly with my growing expertise in finance, as I have developed skills through challenging projects and ambitious academic endeavors. This internship provides a splendid opportunity to engage in intricate analysis and foster meaningful connections with seasoned professionals in the commercial sector.

Throughout my university experience, I've built analytical competencies that resonate well with the responsibilities outlined in your description, for instance, my stint as a Real Estate Analysis Intern had me deep into valuation models, hence gaining hands-on exposure that was nothing short of enlightening. During this role, I thrived in collaboration with peers, harnessing research to support investment plans and effectively communicate with stakeholders.

Collaborating within teams has always been a highlight of my academic pursuits. For instance, while developing financial models and conducting property evaluations, I strived to embrace collective efforts, understanding varied perspectives. This symbiosis has not only sharpened my skills but also enriched my capacity for nuanced dialogue during presentations.

While I feel confident in my abilities, I've certainly faced challenges. There were times when complex analyses could feel overwhelming, yet those moments transformed into great learning experiences—each obstacle reinforced my resolve and underscored my passion for commercial real estate.

I firmly believe my unique experiences and professional growth align splendidly with your program. I eagerly anticipate the chance to bring my analytical strengths and teamwork spirit to Dallas Capital Group while absorbing invaluable insights from your distinguished organization.

Thank you for considering my application.

Sincerely,

Ayden Logan
