STRENGTHS

- Incident Monitoring**
During active events, connected CAD, cameras, LPR data, and open sources into clear updates for field teams.
- Investigative Research**
Background research linked people, vehicles, places, and events, giving investigators useful leads and clearer case context.
- Evidence Review**
Video, audio, and social media review preserved source context, a practice that kept findings useful for case teams.
- Analytical Reporting**
Maps, charts, bulletins, and briefings turned complex records into findings that command personnel could act on.
- Technology Support**
When camera, LPR, or evidence platforms failed during operations, troubleshooting restored continuity and kept information moving.

SKILLS

- Crime Analysis
- Criminal Intelligence
- Investigative Support
- CAD Monitoring LPR Technology
- Surveillance Systems
- Digital Evidence
- Statistical Analysis
- Geospatial Analysis
- Crime Mapping
- Intelligence Bulletins
- Background Research

SUMMARY

Crime Analyst with four years of experience supporting **law enforcement operations** through real time intelligence, investigative research, crime pattern analysis, and **public safety technology** administration. Monitors CAD activity, surveillance feeds, LPR returns, social media, and active incidents, then delivers clear information for field decisions and investigative follow up. Applies statistical and geospatial methods to identify hotspots, trends, threats, and relationships across complex records. Reviews video, audio, social media, and other **digital evidence** while preserving source context and data integrity. Produces **intelligence bulletins**, maps, charts, suspect profiles, reports, and command briefings. Troubleshoots integrated camera, LPR, evidence, and database systems during concurrent assignments. Communicates effectively with investigators, supervisors, partner agencies, and community members while applying investigative practices, policies, court rules, and sound professional judgment.

EXPERIENCE

Crime Analyst

Northstar Public Safety Analytics April 2025 - Present Huntsville, AL

Provides real time analytical coverage, investigative research, digital evidence review, and technology support for **law enforcement operations**. Advises supervisors and partner agencies through concise findings, timely briefings, and reliable information management.

- Reviewed **CAD**, camera feeds, LPR returns, and open source information during **active incidents** for field updates.
- Mapped **crime patterns** with statistical and geospatial methods, producing charts and bulletins for command review.
- Examined video, audio, and **social media** evidence, preserving source context for investigative casework.
- Linked people, vehicles, locations, and events across authorized databases to develop **suspect profiles**.
- Troubleshoot camera, LPR, evidence, and analytical platforms during time sensitive operational assignments.
- Briefed supervisors and partner agencies on emerging patterns while protecting data quality and sharing rules.

Public Safety Intelligence Analyst

Redstone Intelligence Services January 2024 - March 2025 Birmingham, AL

Analyzed incident, dispatch, investigative, and digital information for public safety teams. Converted complex records into reports, maps, briefings, and dependable intelligence while coordinating information exchanges across jurisdictions.

- Analyzed incident and call for service data to identify recurring locations and temporal patterns.
- Prepared intelligence reports, **charts**, maps, and briefings that clarified findings for investigative review.
- Monitored concurrent digital sources during priority incidents and communicated verified updates through established channels.
- Reviewed **digital evidence** and public source information, documenting provenance for case team use.
- Validated analytical **databases**, corrected discrepancies, and improved reliability for recurring investigative queries.
- Coordinated intelligence exchanges across jurisdictions while applying information sharing rules during case support.

MY CAREER

- Crime Analyst at Northstar Public Safety Analytics (1.5 Years)
- Public Safety Intelligence Analyst at Redstone Intelligence Services (1.2 Years)
- Junior Crime Analysis Technician at Magnolia Investigative Support (1.2 Years)

Supported crime analysis workflows through structured data preparation, dispatch monitoring, background research, report production, and database quality checks. Built practical capability with public safety software while meeting concurrent investigative requests.

- Compiled incident, dispatch, location, and investigative records into structured datasets for analyst review.
- Produced maps, tables, charts, and summaries that highlighted developing patterns for investigators.
- Monitored designated camera and dispatch information, escalating relevant observations through established protocols.
- Conducted **background research** across authorized sources and organized case ready reference packages.
- Checked database records for completeness and consistency, referring sensitive issues for supervisory review.
- Prepared analytical reports while managing concurrent requests and meeting established deadlines.

PROJECTS

Real Time Incident Intelligence 📅 2026

Connected CAD activity, surveillance feeds, LPR returns, and open source information into concise operational updates for field personnel and supervisors.

Crime Pattern and Hotspot Review 📅 2025

Applied statistical and geospatial methods to incident records, producing maps, charts, bulletins, and investigative leads for command review.

LEADERSHIP & AWARDS

- Recognized by public safety supervisors for dependable incident intelligence and clear operational briefings.
- Selected for expanded investigative support assignments involving digital evidence, database research, and partner agency coordination.
- Received professional recognition for accurate records management during concurrent time sensitive requests.

EDUCATION

Bachelor's Degree in Criminal Justice

University of North Alabama 🎓 GPA: 3.5 📅 2022 📍 Florence, AL

Coursework: Criminal Investigation, Criminology, Statistical Analysis, Criminal Justice Research

CERTIFICATIONS

- Foundations of Crime Analysis Certificate 📅 2023
- Valid Alabama Driver's License 📅 2022

TECHNICAL SKILLS

- **Public Safety Systems:** Computer Aided Dispatch, License Plate Reader, Surveillance Systems
- **Evidence Platforms:** Evidence Management Software, Video Evidence, Audio Evidence
- **Analytical Methods:** Statistical Analysis, Geospatial Analysis, Crime Mapping
- **Information Sources:** Social Media, Open Source Intelligence, Background Research
- **Reporting Tools:** Intelligence Bulletins, Analytical Reports, Briefing Materials
- **Data Management:** Database Validation, Data Integrity, Records Standardization
- **Investigative Analysis:** Suspect Profiles, Link Analysis, Criminal Intelligence
- **Incident Operations:** Real Time Monitoring, Situational Awareness, Incident Support
- **Communication Practices:** Oral Briefings, Written Reports, Interagency Sharing
- **Compliance Knowledge:** Criminal Investigation Practices, Court Rules, Public Safety Policies
- **Technology Administration:** Camera Troubleshooting, LPR Troubleshooting, Evidence System Support

- **Mapping Outputs:** Incident Maps, Hotspot Maps, Statistical Charts

PROFESSIONAL AFFILIATIONS

- Public safety intelligence coordination with local and regional law enforcement contacts.
- Professional engagement with criminal justice and crime analysis learning communities.
