🌐 linkedin.com/example/hyunaahmed 📍 Savannah, GA 31405

STRENGTHS

- 🔍 **Scene assessment**
Starts with a careful scene review. Supervisors valued clear evidence priorities before collection began.
- 🔒 **Evidence integrity**
Packaging and transfer records stayed orderly in busy cases. That consistency protected later investigative review.
- 📷 **Visual documentation**
Photography and marking choices gave investigators useful context. Close inspection became a dependable habit.
- 🖨️ **Print processing**
Latent print work required patience on imperfect surfaces. Suitable impressions moved forward with clear records.
- 🔧 **Field readiness**
Equipment checks happened before deployment. Teammates came to rely on complete kits and working scanners.

SKILLS

Scene assessment

Evidence collection

Forensic photography

Evidence packaging

Chain of custody

Three dimensional scanning

Scan registration

Latent print processing

SUMMARY

Crime scene investigation professional with two years of combined internship and investigator experience supporting **forensic evidence processing**, scene assessment, **death investigations**, shootings, property crimes, vehicle cases, latent print work, and laboratory follow up. Evaluates scenes, selects documentation methods, photographs and marks evidence, packages items, and prepares clear investigative reports that protect evidentiary integrity. Operates three dimensional scanners, registers scan data, develops latent prints, and prepares suitable impressions for state and **national identification systems**. Experience includes fingerprint documentation, controlled laboratory and **vehicle bay processing**, equipment maintenance, and chain of custody practices. Physical fieldwork has required sustained walking, standing, crouching, kneeling, close visual inspection, careful handling, sound logic, and clear coordination with investigators.

EXPERIENCE

Crime Scene Investigator, Forensic Evidence Processing

Coastal Forensic Services 📅 June 2025 - Present 📍 Savannah, GA

Supports criminal and **death investigations** from initial **scene assessment** through evidence submission and follow up. Leads selected documentation activities, operates scanning and photographic equipment, processes latent prints, and coordinates controlled laboratory and vehicle bay work. Maintains assigned and shared equipment while producing records investigators can rely on during case review.

- Processed shooting, burglary, vehicle, and unattended death scenes using documented evidence workflows.
- Photographed, marked, collected, and packaged physical evidence under **chain of custody** standards.
- Created three dimensional scans, then registered data for later investigative review and reconstruction.
- Developed **latent prints** and prepared suitable impressions for state and national database searches.
- Completed laboratory and vehicle bay examinations with controlled lighting, **photography**, and detailed notes.
- Maintained cameras, scanners, fingerprint supplies, evidence kits, and shared forensic equipment.

Crime Scene Investigation Intern, Forensic Evidence Training

Metro Forensic Training Unit 📅 October 2024 - May 2025 📍 Savannah, GA

Completed supervised rotations across scene assessment, **forensic photography**, sketching, packaging, reporting, **latent print processing**, scanning, and equipment control. Supported simulated and active investigative environments involving deaths, assaults, robberies, burglaries, and vehicle scenes. Built practical judgment through documented reviews with supervising investigators.

- Completed supervised scene rotations covering assessment, photography, sketching, packaging, and reporting.
- Documented death, assault, robbery, burglary, and vehicle scenes for reconstruction and review.
- Practiced latent print development on varied surfaces while preserving suitable impressions for database exercises.
- Built and registered three dimensional scans, checking alignment and completeness with supervisors.
- Processed training evidence in laboratory and vehicle bay exercises under documented transfer controls.
- Inspected shared forensic equipment, identifying depleted supplies and maintenance needs before deployments.

MY CAREER

● Crime Scene Investigator, Forensic Evidence Processing at Coastal Forensic Services (1.3 Years)

● Crime Scene Investigation Intern, Forensic Evidence Training at Metro Forensic Training Unit (7 Months)

PROJECTS

Three Dimensional Scene Documentation 📅 2025

Created registered scan records for training scenes, checking alignment, coverage, and completeness before review by supervising investigators.

Latent Print Processing Study 📅 2025

Processed varied surfaces through documented development sequences, then prepared suitable impressions for identification database exercises.

LEADERSHIP & AWARDS

- Received Georgia Crime Scene Investigator State Certification in 2026 after completing required professional preparation.
- Selected for investigator responsibilities involving scene processing, three dimensional scanning, latent prints, and laboratory follow up.
- Trusted with shared forensic equipment inspections, supply checks, and readiness documentation before field deployments.

EDUCATION

Certificate in Crime Scene Investigation

Savannah Technical College 🎓 GPA: 4.0 📅 2024 📍 Savannah, GA

Coursework: *Crime scene assessment, forensic photography, evidence collection, latent print processing*

CERTIFICATIONS

- Georgia Crime Scene Investigator State Certification 📅 2026
- Forensic Photography and Evidence Documentation Certificate 📅 2025
- Latent Print Processing Fundamentals Certificate 📅 2025

TECHNICAL SKILLS

- **Scene Documentation:** Overall photography, midrange photography, close up photography
- **Evidence Handling:** Evidence marking, evidence collection, evidence packaging
- **Custody Records:** Chain of custody, transfer documentation, submission records
- **Three Dimensional Scanning:** Three dimensional scanner, scan registration, spatial documentation
- **Latent Print Processing:** Latent print development, print evaluation, impression preparation
- **Identification Systems:** State databases, national databases, identification searches
- **Fingerprint Services:** Fingerprinting, juvenile fingerprinting, offender fingerprinting
- **Laboratory Processing:** Controlled lighting, laboratory examination, evidence follow up
- **Vehicle Bay Processing:** Vehicle bay examination, vehicle evidence, recovered vehicles
- **Photography Equipment:** Digital cameras, photographic equipment, scene lighting
- **Evidence Equipment:** Evidence kits, fingerprint supplies, equipment inventories
- **Investigative Reporting:** Scene reports, activity records, findings documentation

PROFESSIONAL AFFILIATIONS

- Professional connection to forensic investigation practice through supervised training and active scene processing work.
- Committed to evidence integrity, clear documentation, and public safety through disciplined investigative service.
