STRENGTHS

- 🛠️ **Emergency prioritization**
Reordered care as acuity shifted, helping teams address time sensitive threats first. Colleagues trusted calm decisions during crowded assignments.
- 🔔 **Clinical escalation**
Connected bedside findings with timely physician communication. A clear change report often helped teams act before deterioration became harder to manage.
- ❤️ **Patient advocacy**
Protected dignity during behavioral crises and stressful procedures. Small explanations helped patients and families feel heard during uncertain moments.
- 👥 **Team precepting**
Guided nurses entering emergency practice through real cases and direct feedback. New colleagues gained confidence without losing focus on safety.
- 👂 **Critical care judgment**
Combined assessment, telemetry, and response monitoring across progressive care and emergency settings. Peers frequently sought input on changing conditions.

SKILLS

Emergency Nursing Critical Care

Acute Care Triage

Patient Assessment

Trauma Response

Stroke Assessment

Cardiac Monitoring

Arrhythmia Recognition

Medication Administration

SUMMARY

Registered Nurse with five years of **acute care** experience, including more than three years in high acuity **Emergency Department** practice. Provides rapid assessment, stabilization, medication administration, cardiac monitoring, neurologic evaluation, and evidence based care for adult and pediatric patients. California RN with BSN, active license, BLS, ACLS, PALS, NIH Stroke Scale, CPI, Basic Arrhythmia, and **Certified Emergency Nurse** credentials. Responds calmly during trauma, stroke, **respiratory distress**, chest pain, sepsis, behavioral crisis, and changing patient acuity. Partners with physicians, respiratory therapy, pharmacy, laboratory, imaging, and inpatient teams across continuous hospital operations. Precepts nurses entering emergency practice and supports safe, respectful care that strengthens patient transitions and clinical outcomes.

EXPERIENCE

Emergency Department Registered Nurse, Acute Care

Sierra Crest Health 📅 June 2023 - Present 📍 Sacramento, CA

Supports high volume Emergency Department operations for adult and **pediatric patients**, managing triage, stabilization, reassessment, escalation, documentation, and precepting across changing acuity. Coordinates interdisciplinary care during time sensitive emergencies and applies current life support, stroke, arrhythmia, behavioral safety, and emergency nursing competencies.

- Triage adult and pediatric presentations, reprioritizing care as acuity changed across emergency assignments.
- Stabilized respiratory distress, **chest pain**, sepsis, **neurologic changes**, and trauma using life support protocols.
- Completed NIH Stroke Scale evaluations, coordinating imaging and laboratory workflows for rapid treatment decisions.
- Interpreted **telemetry** rhythms and escalated significant findings during emergency cardiac interventions and reassessment.
- Applied **CPI** techniques during behavioral crises, supporting **de escalation**, staff safety, and patient dignity.
- Precepted transitioning nurses on assessment, medication safety, documentation, escalation, and independent assignment readiness.

Progressive Care Registered Nurse, Cardiac Monitoring

Redwood Regional Hospital 📅 July 2021 - May 2023 📍 Roseville, CA

Managed progressive care assignments for patients needing continuous cardiac monitoring, frequent reassessment, complex medications, and coordinated transitions. Built critical care judgment through rhythm interpretation, hemodynamic surveillance, escalation, patient education, and structured collaboration with physicians and receiving teams.

- Managed progressive care assignments requiring continuous monitoring, frequent reassessment, and complex medication regimens.
- Recognized arrhythmias and hemodynamic changes through bedside assessment and telemetry review before deterioration.
- Administered intravenous medications and infusions with verification, allergy review, and response monitoring.
- Supported recovery from cardiac, pulmonary, neurologic, and infectious conditions through individualized nursing plans.
- Coordinated transfers by organizing handoffs, medication reconciliation, diagnostics, and current clinical priorities.
- Educated patients and families on medications, warning signs, follow up needs, and recovery plans.

MY CAREER

5.8
YEARS

● Emergency Department Registered Nurse, Acute Care at Sierra Crest Health (3.3 Years)

● Progressive Care Registered Nurse, Cardiac Monitoring at Redwood Regional Hospital (1.8 Years)

● Medical Surgical Registered Nurse, Acute Care at Oak Terrace Medical Center (8 Months)

Medical Surgical Registered Nurse, Acute Care

Oak Terrace Medical Center 📅 October 2020 - June 2021 📍 Davis, CA

Delivered acute medical and postoperative nursing care while building a foundation in assessment, **medication administration**, care planning, documentation, prioritization, and discharge coordination. Worked with interdisciplinary partners to identify changes early and support safe recovery, transfer, and home readiness.

- Delivered acute nursing care for medical and postoperative patients using structured assessment and planning.
- Trended vital signs, laboratory findings, pain, intake, output, and function to identify meaningful changes.
- Prioritized competing patient needs through reassessment and timely escalation to physicians and charge nurses.
- Performed medication reconciliation and administration while monitoring therapeutic response and adverse effects.
- Coordinated with assistants, case management, rehabilitation, pharmacy, and providers for discharge readiness.
- Educated patients and caregivers on recovery, medications, mobility, wound care, and warning symptoms.

PROJECTS

Emergency Stroke Response Workflow 📅 2024

Partnered with emergency clinicians, imaging staff, and laboratory teams to coordinate faster stroke evaluations. Shared practical workflow feedback that supported clear communication and consistent neurologic reassessment during urgent patient care.

Emergency Nurse Preceptorship Program 📅 2025

Supported nurses entering emergency practice through shared case review, bedside coaching, and thoughtful feedback. Created space for questions while reinforcing safe assessment, medication, documentation, and escalation habits.

LEADERSHIP & AWARDS

- Certified Emergency Nurse credential earned in 2024, recognizing specialty knowledge across emergency assessment, stabilization, and patient safety.
- Emergency Department preceptor recognition for supporting transitioning nurses through clinical coaching, feedback, and independent assignment preparation.
- NIH Stroke Scale certification and advanced life support credentials supporting timely response during neurologic and cardiac emergencies.

EDUCATION

Bachelor's Degree in Nursing

California State University, Sacramento 🎓 GPA: 4.0 📅 2020 📍 Sacramento, CA

Coursework: Emergency nursing, critical care, pharmacology, health assessment, community health

CERTIFICATIONS

- Certified Emergency Nurse 📅 2024
- Crisis Prevention Institute Certification 📅 2024
- Basic Arrhythmia Course 📅 2021
- Advanced Cardiovascular Life Support 📅 2026
- Pediatric Advanced Life Support 📅 2026
- Healthcare Provider Basic Life Support 📅 2026
- NIH Stroke Scale Certification 📅 2026
- California Registered Nurse License 📅 2026

TECHNICAL SKILLS

- **Life Support Certifications:** BLS, ACLS, PALS

- **Emergency Nursing:** Triage, trauma response, stabilization
- **Neurologic Assessment:** NIH Stroke Scale, stroke evaluation, focused assessment
- **Cardiac Monitoring:** Telemetry, arrhythmia recognition, Basic Arrhythmia
- **Behavioral Safety:** CPI, de escalation, crisis prevention
- **Clinical Care Planning:** Care plans, reassessment, accepted standards
- **Medication Administration:** Intravenous medications, infusions, medication reconciliation
- **Patient Transitions:** Handoffs, discharge planning, transfer coordination
- **Clinical Documentation:** Nursing documentation, change reporting, clinical records
- **Interdisciplinary Collaboration:** Physicians, respiratory therapy, pharmacy
- **Diagnostic Coordination:** Laboratory workflows, imaging workflows, rapid evaluation
- **Nursing Education:** Precepting, patient education, specialty education

PROFESSIONAL AFFILIATIONS

- Emergency Nurses Association member, contributing practical perspectives on emergency care, education, and patient safety.
- American Nurses Association member, supporting professional standards, ethical practice, and collaborative nursing development.
