SUMMARY

ARRT registered Radiologic Technologist with three years of diagnostic imaging experience across hospital and outpatient settings. Provides careful patient preparation, positioning, procedure explanation, vital sign observation, radiation safety, image quality review, and clinical documentation for emergency, inpatient, and outpatient populations. Completed supervised CT cross training on GE systems, including room preparation, protocol review, contrast screening support, **equipment quality checks**, and communication with radiologists and senior technologists. Holds ARRT (R), Florida **Certified Radiologic Technologist, Basic Life Support**, and valid Florida driver credentials. Experience with bone densitometry adds a second imaging modality. Calm communication helps patients feel informed, while accurate workflows support safe, dependable imaging service. Prepared to obtain **ARRT Computed Tomography** certification within 12 months and contribute reliable care within a collaborative hospital department.

EXPERIENCE

Radiologic Technologist, Hospital Imaging July 2024 - Present
Gulf Coast University Hospital Tampa, Florida

Supports diagnostic radiography and supervised CT cross training across emergency, inpatient, and outpatient services. Adjusts patient care, positioning, safety checks, and communication for clinical needs while coordinating with radiologists and senior technologists.

- Performed **emergency**, inpatient, and outpatient radiography with positioning adapted for pain and limited mobility.
- Completed supervised CT cross training on GE systems, preparing rooms, protocols, screening, and **patient positioning**.
- Applied **radiation safety standards** by confirming identity, examination details, screening, and protective measures before exposure.
- Monitored **patient comfort** and observable condition, escalating changes promptly and documenting relevant clinical information.
- Prepared patients for contrast related CT workflow through screening steps and education under departmental procedures.
- Communicated **image quality** concerns and clinical limitations to **radiologists**, supporting repeat or supplemental imaging decisions.

Radiologic Technologist, Outpatient Imaging October 2023 - June 2024
Suncoast Diagnostic Center Clearwater, Florida

Delivered outpatient radiography and supervised **bone densitometry** services in a busy diagnostic center. Combined patient education, positioning, equipment checks, documentation, schedule coordination, and respectful service for varied patient needs.

- Delivered **outpatient** radiography through accurate positioning, **patient education**, room turnover, and consistent safety checks.
- Completed supervised bone densitometry assignments, following equipment procedures and recording examination information accurately.
- Performed routine **equipment quality checks** and reported performance concerns through established maintenance channels.
- Explained procedures plainly, answering questions for anxious patients and people with limited mobility.
- Maintained electronic procedure records with examination status, positioning limitations, and notes for interpreting clinicians.
- Coordinated schedule changes with technologists, front desk staff, and interpreting physicians while preserving patient service.

PROJECTS

GE CT Cross Training 📅 2026
Supported supervised preparation for CT practice on GE systems, including protocol review, contrast screening, positioning, equipment checks, and radiologist communication.

Bone Densitometry Imaging Support 📅 2024
Completed supervised bone densitometry assignments as an additional imaging modality, following equipment procedures and documenting examination details.

LEADERSHIP & AWARDS

- Recognized by senior technologists for dependable patient communication during supervised CT cross training.
- Selected for expanded imaging development through supervised GE CT and bone densitometry assignments.
- Maintained consistent documentation and safety practices across hospital and outpatient imaging services.

EDUCATION

Associate of Science in Radiologic Technology 2023
Hillsborough Community College GPA: 0 Tampa, Florida
Coursework: Radiographic positioning, radiation protection, patient care, imaging procedures

CERTIFICATIONS

- Registered Technologist in Radiography, ARRT (R) 📅 2023
- Certified Radiologic Technologist, Florida 📅 2023
- Basic Life Support, American Heart Association 📅 2026
- Valid Florida Driver’s License 📅 2026

TECHNICAL SKILLS

- **CT Imaging:** Computed Tomography, CT Protocols, CT Workflow
- **GE Equipment:** GE CT Systems, GE Imaging Equipment, Equipment Calibration
- **Radiography:** Diagnostic Radiography, Radiographic Positioning, Emergency Imaging
- **Patient Care:** Patient Preparation, Patient Positioning, Patient Education
- **Contrast Services:** IV Contrast Screening, Contrast Education, Contrast Workflow
- **Safety Standards:** Radiation Safety, Protective Measures, Patient Identification
- **Clinical Monitoring:** Vital Sign Observation, Comfort Monitoring, Condition Escalation
- **Documentation Systems:** Clinical Documentation, Procedure Records, Electronic Records
- **Quality Processes:** Image Quality Review, Equipment Quality Checks, Maintenance Reporting
- **Credentials:** ARRT (R), CRT, Basic Life Support

SKILLS

- | | | | |
|--------------------------|--------------------------|----------------------------|-----------------------------|
| • Computed Tomography | • IV Contrast Screening | • Imaging Protocols | • Bone Densitometry |
| • GE CT Systems | • Patient Education | • Equipment Quality Checks | • Radiologist Communication |
| • Diagnostic Radiography | • Vital Sign Observation | • Clinical Documentation | • Customer Service |
| • Patient Positioning | • Radiation Safety | • Hospital Imaging | |

PROFESSIONAL AFFILIATIONS

- Hospital imaging team contributor supporting radiologists, technologists, and clinical care staff.
- Outpatient diagnostic services collaborator coordinating patient needs with front desk and interpreting physicians.

LANGUAGES

- English (Native)
- Spanish (Intermediate)
