SUMMARY

Sophia Mitchell demonstrates strong experience in roles requiring collaboration between business units and technology teams. Known for creating clear user stories that guide development priorities. Established processes that lead to successful project deliveries while managing product backlogs efficiently. Engages with stakeholders meaningfully, portraying a commitment to solution-oriented work that aligns with business goals. Recognize success through improved communication channels, leading to enhanced stakeholder satisfaction and stronger project outcomes. Every role undertaken showcases dedication to fostering partnerships across departments and ensuring projects align with organizational objectives.

EXPERIENCE

Data Architecture Business Analyst

Tech Innovators LLC 📅 January 2021 - Present 📍 Chicago, IL

Leverage experience as a Data Architecture Business Analyst to drive change, collaborating with cross-functional teams. Translate business requirements into actionable specifications enhancing clarity for technical implementations. Equipped with profound knowledge of Agile methodologies, which guides efficient management of product backlogs throughout project lifecycles. Ensure alignment between roles by developing user stories focused on holistic understanding between varied stakeholders.

- Facilitated stakeholder engagement, refining diverse user needs into precise functional documentation.
- Led agile sessions promoting streamlined prioritization aligning closely with both corporate strategies and operational efficacy.
- Developed actionable user stories alongside robust process flows boosting comprehension within interconnected teams.
- Managed frequent communications with stakeholders, providing regular updates tied directly to project progression.

Business Analyst

Data Solutions Group 📅 June 2018 - December 2020 📍 Chicago, IL

Employed strategic analysis skills to support core functions of a business analyst, emphasizing requirement gathering functions critical for project success. Presented complex analytics and actionable insights clearly understood by both technical and non-technical team members, fostering effective discussions surrounding project specifications.

- Documented business requirements transforming them efficiently into user stories aiding in the software development process.
- Advocated for necessary adaptations among technical solutions echoing the voices and needs from multiple business segments.
- Prepared tailored presentations illustrating project objectives, meeting addressing distinct interests from diverse audience bases.
- Nurtured who stayed engaged as end-users, maximizing information flow impacting decision-making positively.

LEADERSHIP & AWARDS

- Recognized for exceptional teamwork which significantly increased project efficiencies across several departments.
- Awarded Employee of the Month in June 2019 for outstanding contributions towards data regulation compliance initiatives.

EDUCATION

Bachelor's Degree in Information Systems

University of Illinois at Chicago 🎓 GPA: 3.8 📅 2017 📍 Chicago, IL

STRENGTHS

- 👥 **Collaborative Approach**
Frequently facilitated multidisciplinary project discussions, earning appreciation from team members involved.
