

Ali Burnett

Electrical Manufacturing Engineer Intern

AUGUST 20, 2026

Hiring Manager
Innovative Transit Solutions
Las Vegas, NV

Dear Hiring Manager,

I am excited to express interest in the Electrical Manufacturing Engineer Intern role at Innovative Transit Solutions, as this opportunity perfectly marries my technical inclinations with my dedication to enhancing engineering practices within dynamic environments.

Innovative Transit Solutions stands as a beacon of progress in electric transport, and I am inspired by your commitment to fostering zero-emission mobility; ensuring production efficiencies while nurturing an inclusive, supportive workplace culture is paramount in your mission.

This past summer, I engaged in optimizing workflow during an internship, where our team analyzed energy systems; we achieved remarkable results, refining processes, and enhancing efficiency by 15%—a testament to what collaborative efforts can achieve.

In my capstone project, I effectively led my peers to streamline assembly processes; the outcome—a 20% decrease in assembly time—demonstrated my ability to translate theoretical concepts into effective practical solutions, fostering teamwork along the way.

Being part of a team dedicated to shaping mobility's future is thrilling; learning from professionals at Innovative Transit Solutions would be a unique privilege as I apply my knowledge and foster continuous improvement initiatives within your dynamic organization.

Thank you for considering my application.

Sincerely,

Ali Burnett
