

Kingston Banks

Electrician

JULY 02, 2026

Hiring Manager
SnackCorp Technologies
Chicago, IL

Dear Hiring Manager,

I am excited to submit my application for the Electrician position at SnackCorp Technologies, a company recognized for its innovative snacking solutions. This opportunity aligns seamlessly with my extensive experience in maintaining and enhancing industrial equipment, an area where I truly excel and thrive.

At TechFlow Industries, I operated manufacturing equipment with precision, exceeding production goals while ensuring compliance with rigorous safety and quality standards. Working closely with others, I cultivated a spirit of collaboration that not only resolved machine issues quickly but also fostered team trust and understanding, building an environment where success thrived.

In my previous role at ElectroTech Solutions, I took on numerous challenges, supporting senior electricians while gaining hands-on experience with PLC and VFD systems. One notable project involved the implementation of maintenance protocols, which resulted in significant gains in efficiency and reliability of machinery. It didn't always feel easy, but finding solutions motivated me, driving me to become better.

I believe my career thus far has built a solid foundation in electrical systems and programming. As I look to grow further at SnackCorp Technologies, I am eager to bring my skills in troubleshooting and safety compliance to your esteemed company to contribute meaningfully to your innovative projects.

Thank you for your consideration.

Sincerely,

Kingston Banks
