STRENGTHS

Clinical coaching

Field rotations became clearer learning moments through calm questioning, practical feedback, and patient focused reasoning.

Skills instruction

Repeated skills practice helped learners connect demonstrations with safe performance during demanding clinical scenarios.

Inclusive teaching

Varied learner backgrounds received patient explanations, flexible examples, and clear expectations during instruction.

Protocol application

Case reviews linked field decisions with current protocols, giving developing clinicians stronger clinical judgment.

Student remediation

When a learner struggled, focused coaching and repeat practice turned uncertainty into measurable competency.

SUMMARY

Paramedic and EMS educator with 8 years of direct prehospital patient care experience across 911 response, **advanced life support**, clinical precepting, and skills instruction. Illinois licensed Paramedic with current CPR for Healthcare Provider credentials, **EMS System Protocol Competency**, ACLS, and PALS. Translates field practice into structured learning for EMR, EMT, and Paramedic students through classroom instruction, simulation, skills labs, competency evaluation, remediation, and individualized coaching. Applies **National EMS Education Standards, IDPH Rules and Regulations**, and EMS system protocols to support safe, evidence informed clinical practice. Adapts instruction for varied backgrounds and learning needs, communicates clearly with students and faculty, and maintains current clinical knowledge through continuing education, protocol review, and multidisciplinary collaboration.

EXPERIENCE

Paramedic and EMS Preceptor, Advanced Life Support

Fox Valley Emergency Medical Services 📅 July 2023 - Present 📍 Aurora, IL

Provides advanced life support for a high volume suburban 911 service while precepting clinicians, leading case review, delivering skills refreshers, and strengthening documentation quality. Supports patient safety, protocol adherence, student development, and current prehospital practice through structured coaching and continuing education.

- Provided advanced life support during medical, trauma, cardiac, respiratory, and neurologic emergencies.
- Precepted **EMT** and **Paramedic** students through supervised field rotations and clinical reasoning discussions.
- Led case debriefs using protocol references, focused **feedback**, and specific learning objectives.
- Conducted skills refreshers covering **airway management**, vascular access, medications, cardiac monitoring, and resuscitation.
- Reviewed patient care reports for completeness, documentation quality, and EMS system compliance.
- Maintained current **clinical knowledge** through **continuing education**, protocol updates, and simulation exercises.

Paramedic, Emergency Medical Services

DuPage Regional Ambulance Service 📅 June 2020 - June 2023 📍 Wheaton, IL

Managed ALS care from dispatch through transfer of care, served as lead clinician during time sensitive responses, supported simulation sessions, and guided newer EMTs. Connected field cases with protocol adherence, patient safety, documentation quality, and continuing **professional development**.

- Managed ALS care from dispatch through transfer across adult and pediatric emergency presentations.
- Directed time sensitive calls through rapid prioritization, medical control, and hospital coordination.
- Guided newer EMTs in assessment, equipment preparation, safe movement, infection prevention, and handoffs.
- Supported **simulation** sessions with realistic scenarios, observed performance, and actionable feedback.
- Applied EMS protocols to medications, airway care, cardiac treatment, trauma, and **resuscitation** decisions.
- Participated in quality review discussions focused on patient safety and protocol adherence.

Paramedic, Prehospital Emergency Care

Tri City Fire Protection District 📅 May 2018 - May 2020 📍 St. Charles, IL

MY CAREER

8.2
YEARS

● Paramedic and EMS Preceptor, Advanced Life Support at Fox Valley Emergency Medical Services (3.2 Years)

● Paramedic, Emergency Medical Services at DuPage Regional Ambulance Service (3 Years)

● Paramedic, Prehospital Emergency Care at Tri City Fire Protection District (2 Years)

Delivered direct prehospital care while progressing from supervised orientation to independent ALS practice within Illinois scope of practice requirements. Built strong foundations in assessment, protocol directed treatment, resuscitation readiness, patient **communication**, documentation, and continuing education.

- Delivered **prehospital** care during emergency responses within Illinois scope of practice requirements.
- Performed patient assessments, interpreted vital signs and cardiac rhythms, and communicated clinical findings.
- Executed protocol directed treatment for respiratory distress, chest pain, trauma, shock, and allergic reactions.
- Strengthened resuscitation readiness through equipment checks, medication verification, and scenario practice.
- Educated patients and families about immediate care decisions and transport considerations.
- Completed **continuing education** and protocol competency activities supporting future preceptor responsibilities.

PROJECTS

Regional EMS Skills Lab 📅 2026

A practical teaching initiative built from repeated field questions. Created scenario based practice for airway management, vascular access, cardiac monitoring, trauma care, and resuscitation, giving learners space to build confidence through coached repetition and competency checks.

Protocol Case Review Series 📅 2025

Complex calls became focused learning moments through structured case review. Connected assessment findings, treatment decisions, documentation, and EMS system protocols, helping developing clinicians see how disciplined reasoning supports safer patient care.

LEADERSHIP & AWARDS

- Recognized by field teams for calm clinical leadership during high acuity emergency responses.
- Selected as a trusted preceptor for EMT and Paramedic students during supervised field rotations.
- Commended for clear case debriefs, focused feedback, and practical skills coaching.

EDUCATION

Associate of Applied Science in Emergency Medical Services

Waubensee Community College 🎓 GPA: 4.0 📅 2018 📍 Sugar Grove, IL

Coursework: Emergency patient assessment, advanced life support, EMS protocols, clinical skills

CERTIFICATIONS

- Illinois Licensed Paramedic 📅 2026
- CPR for Healthcare Provider 📅 2026
- EMS System Protocol Competency 📅 2026
- Advanced Cardiac Life Support 📅 2026
- Pediatric Advanced Life Support 📅 2026

TECHNICAL SKILLS

- **EMS Education:** EMR instruction, EMT instruction, Paramedic instruction
- **Clinical Assessment:** Patient assessment, differential evaluation, vital signs
- **Advanced Life Support:** ALS care, resuscitation, medical control
- **Airway Care:** Airway management, respiratory care, oxygen therapy
- **Cardiac Care:** Cardiac monitoring, cardiac rhythms, ACLS
- **Trauma Care:** Trauma assessment, shock care, safe transport
- **Medication Practice:** Medication administration, medication verification, protocol treatment
- **Skills Evaluation:** Skills labs, competency checks, performance observation
- **Simulation Training:** Scenario practice, case debriefs, coached practice

- **Compliance Standards:** IDPH requirements, EMS system protocols, safety standards
- **Documentation Systems:** Patient care reports, clinical documentation, handoff communication
- **Student Support:** Remediation, student conferences, individualized coaching

PROFESSIONAL AFFILIATIONS

- Illinois EMS professional community participant focused on current protocols and clinical practice.
- Prehospital education peer network contributor supporting simulation, remediation, and student development.
