

Niko Owen

Entry Level AI Software Engineer

JULY 30, 2026

Hiring Manager
Uptime Crew
California

Dear Hiring Manager,

I am eager to apply for the Entry Level AI Software Engineer position at Uptime Crew. My academic endeavors mirror real-life projects where I thrived using AI to evolve software capabilities. This role, with its focus on enhancing code efficiency, resonates strongly with my aspirations.

I have immersed myself in AI tools during my recent internship, creating automated tests that sped up workflows. The thrill of reducing testing time by 30% through automation fuels my passion, compelling me to excel in a setting that prioritizes innovative solutions and Agile methodologies.

In a challenging yet collaborative environment, I engaged with peers to develop CI/CD pipelines, evident in my internship where our efforts resulted in a 25% boost in deployment efficiency. Facing obstacles led to insightful improvements, showcasing my resilience and consistent learning.

I thrive on building partnerships, collaborating with diverse teams to meet fintech standards. My commitment to driving security-compliance and improving code quality aligns seamlessly with Uptime Crew's mission, ensuring I contribute effectively to the client team.

I look forward to integrating AI technologies into practical development. Together, we can elevate software delivery while ensuring high standards of security and quality.

Thank you for your consideration.

Sincerely,

Niko Owen
