

Legend Callahan

Entry-Level Manufacturing Engineer

AUGUST 20, 2026

Hiring Manager
Titan Manufacturing Solutions
Chicago, IL

Dear Hiring Manager,

I am thrilled to apply for the Entry-Level Manufacturing Engineer position at Titan Manufacturing Solutions, a company recognized for its groundbreaking advancements in manufacturing technology, which fits my burgeoning skills and fervor for the aerospace industry.

In my recent internship, collaborating with various stakeholders helped me understand the intricacies of customer-centered engineering, where I not only developed critical engineering processes but also ensured every project requirement was not merely met but surpassed.

At the University, I designed prototypes with SolidWorks, enhancing efficiency by 15%, which I consider an essential testament to what teamwork and adaptive thinking can achieve.

Furthermore, my exposure to cold spray applications while supporting research initiatives equipped me with the expertise to contribute significantly to Titan's production goals, while my commitment to safety and quality aligns perfectly with your values.

This role excites me not just as a job, but as a significant stepping stone in my career where I can bring innovative solutions, all while learning and growing alongside a team dedicated to excellence.

Thank you for your consideration.

Sincerely,

Legend Callahan
