

Prince Walter

Environmental Engineering Intern

AUGUST 13, 2026

Hiring Manager
EcoSolutions
Milwaukee, WI

Dear Hiring Manager,

I am thrilled to apply for the Environmental Engineering Intern role at EcoSolutions, where my aspirations to engage with impactful projects dovetail with your organization's commitment to sustainable innovation, thus presenting an exciting opportunity for collaboration that can foster creativity and contribute to meaningful environmental solutions.

Having conducted diverse environmental assessments during my academic journey, I found joy in tackling intricate challenges and collaborating with peers to devise strategic solutions, engaging in tasks like soil quality studies or air emission evaluations, which sparked my passion for environmental stewardship that aligns perfectly with EcoSolutions' mission.

Amid my experiences, I faced hurdles, from coordinating multiple tasks to grappling with complex data interpretations, yet each challenge reinforced my resolve and nurtured growth, showcasing the importance of adaptability and teamwork in adhering to strict environmental regulations while achieving project goals.

My ongoing education in Civil Engineering, coupled with hands-on internships, has equipped me to thrive in fast-paced environments, where I've executed projects that demanded high levels of organization and analytical thinking, crucial skills that align with your internship expectations for aiding field investigations and supporting remediation efforts.

I am eager to contribute to EcoSolutions' innovative projects, further enhancing my knowledge through dynamic engagement and collaboration while supporting your missions that resonate closely with my core values of responsibility and sustainability.

Thank you for considering my application.

Sincerely,

Prince Walter
