STRENGTHS

- ♥ **Practical Risk Control**
During shop floor reviews, translated observed hazards into controls supervisors could apply and verify without slowing production.
- 📁 **Clear EHS Records**
Built organized records for audits, permits, and corrective actions; managers gained a dependable view of open work.
- 🔍 **Field Investigation**
After incidents and near misses, gathered facts carefully and followed actions until evidence showed closure.
- 👥 **Employee Support**
Supported fit testing, exposure sampling, and safety talks with plain explanations employees could use immediately.
- ✅ **Regulatory Coordination**
Kept waste, air, stormwater, and agency records aligned; teams found answers faster during reviews.

SUMMARY

Environmental, Health and Safety professional with four years of manufacturing experience supporting **regulatory compliance**, industrial hygiene, risk assessment, incident investigation, waste management, and management system controls. Hands on work includes collecting defensible EHS data, maintaining ISO 14001 and ISO 45001 documentation, reviewing **Safety Data Sheets**, conducting exposure sampling, supporting **respirator fit testing**, and tracking corrective actions through closure. Experience covers RCRA waste coordination, DOT shipping checks, air emission records, stormwater compliance, contractor briefings, **occupational health** documentation, and regulator facing reports. Clear communication with production leaders and employees supports practical controls, organized records, confidential information handling, and steady progress across concurrent priorities. Brings a grounded approach to protecting employees, maintaining compliance, and supporting reliable manufacturing operations.

EXPERIENCE

EHS Representative

Northfield Components Group 📅 May 2024 - Present 📍 Detroit, MI

Support EHS programs across a high mix manufacturing operation, maintaining management system records, compliance evidence, exposure documentation, environmental reporting, and corrective action tracking for production and facilities teams.

- Maintained **ISO 14001** and **ISO 45001** records, audit evidence, calendars, and action tracking for production teams.
- Translated chemical, ergonomic, fall, and process hazards into practical controls through supervisor led risk assessments.
- Performed noise and airborne exposure sampling, preserving chain of custody records for occupational health review.
- Coordinated **RCRA** waste inspections, accumulation records, vendor files, and **DOT** shipping checks for compliant movement.
- Prepared air permit monitoring records and reporting inputs for state agency and EPA information requests.
- Investigated injuries, **near misses**, and HAZMAT releases, then tracked **corrective actions** through documented closure.

EHS Coordinator

Lakeview Precision Manufacturing 📅 October 2022 - April 2024 📍 Warren, MI

Delivered daily EHS coordination for machining and assembly operations, balancing employee support, environmental records, contractor controls, inspections, training, and production schedules.

- Completed inspections covering hazardous materials, waste storage, fall protection, emergency equipment, and stormwater controls.
- Reviewed SDSs for proposed materials, documented hazards, and routed workplace control recommendations before introduction.
- Supported **respirator fit testing** and **occupational health** records while protecting confidential employee information.
- Prepared **contractor safety briefings** covering site hazards, emergency expectations, controls, and work rules.
- Built **Excel** trackers for inspections, training, permits, and **corrective actions**, improving deadline visibility for managers.
- Supported environmental recordkeeping and follow up activities across concurrent manufacturing priorities and compliance obligations.

MY CAREER

● EHS Representative at Northfield Components Group (2.4 Years)

● EHS Coordinator at Lakeview Precision Manufacturing (1.5 Years)

PROJECTS

Manufacturing Stormwater Compliance 📅 2025

Coordinated stormwater inspection records, corrective action follow up, and operator documentation across active manufacturing areas. Clear records helped keep environmental tasks visible and ready for review.

Industrial Hygiene Exposure Review 📅 2024

Organized noise and airborne exposure sampling records, laboratory results, and occupational health recommendations. Findings gave supervisors practical information for employee protection and follow up.

LEADERSHIP & AWARDS

- Recognized by production leadership for clear EHS records and dependable corrective action follow through.
- Selected by site teams to support contractor briefings, employee safety discussions, and practical hazard controls.
- Commended for organized regulator documentation supporting environmental reporting and information requests.

EDUCATION

Bachelor's Degree in Occupational Safety and Health

Oakland University 🎓 GPA: 3.5 📅 2022 📍 Rochester, MI

Coursework: Industrial Hygiene, Environmental Compliance, Occupational Health, Risk Assessment, Safety Management

CERTIFICATIONS

- RCRA Hazardous Waste Management Training Certificate 📅 2026
- DOT Hazmat Transportation Training Certificate 📅 2026
- Stormwater Operator Certificate 📅 2025
- OSHA 30 Hour General Industry 📅 2023

TECHNICAL SKILLS

- **EHS Management Systems:** ISO 14001, ISO 45001, audit records
- **Environmental Regulations:** CAA, CWA, SARA Title III
- **Waste Management:** RCRA, hazardous waste, accumulation areas
- **Transportation Compliance:** DOT, HAZMAT, shipping checks
- **Industrial Hygiene:** Exposure sampling, noise monitoring, air sampling
- **Occupational Health:** Respirator fit testing, exposure review, confidential records
- **Safety Programs:** OSHA, fall protection, safety briefings
- **Environmental Permitting:** Air permits, EPA reporting, state agency reporting
- **Stormwater Management:** Industrial stormwater, inspections, operator certification
- **EHS Data Systems:** Excel, cloud based systems, compliance trackers
- **Office Applications:** Word, Outlook, PowerPoint
- **Incident Management:** Injury investigation, near miss review, HAZMAT release response

PROFESSIONAL AFFILIATIONS

- Member, American Society of Safety Professionals, supporting continued occupational safety learning.
- Participant, local environmental compliance forums, sharing practical manufacturing safety and waste management insights.
