STRENGTHS

🔍 Field judgment

During complex facility visits, balanced regulatory requirements with practical corrective steps operators could apply immediately.

🗣️ Public education

Site visits and presentations turned technical rules into clear actions, helping operators respond with greater confidence.

🔎 Investigation

Complaint and illness reports received careful exposure review, evidence gathering, documentation, and follow up monitoring.

🚒 Emergency response

Severe weather assignments called for calm sanitation assessments, clear records, and steady coordination with partner agencies.

♥️ Record accuracy

CDP and EnerGov entries kept permits, inspections, complaints, and enforcement activity organized for dependable decisions.

SUMMARY

Environmental Health Specialist with six years of progressive **public health** experience conducting independent inspections, permitting, complaint investigations, **foodborne illness** response, and compliance education across food, lodging, institutional, childcare, health care, and public swimming pool settings. Applies North Carolina requirements and local public health rules with sound field judgment, complete documentation, and practical follow up. Experienced evaluating **foodborne risk factors**, equipment, sanitation conditions, **temporary food vendors**, emergency shelters, and regulated facility operations. Uses CDP, EnerGov, Microsoft Word, Excel, and Outlook for inspection records, permits, complaints, reports, and communication. Coordinates investigations and referrals with state and local partners, supports disaster response, and translates regulatory findings into clear corrective steps that protect communities and improve compliance.

EXPERIENCE

Senior Environmental Health Specialist, Food, Lodging and Institutions

Cape River Health District 📅 January 2024 - Present 📍 Jacksonville, NC

Leads independent environmental health operations across diverse permitted facilities, temporary food events, complaint investigations, emergency assessments, and regulatory follow up. Uses CDP and EnerGov to maintain accurate records while coordinating education, enforcement, and partner agency response.

- Completed CDP inspections across restaurants, lodging, childcare, institutions, **health care facilities**, and **public swimming pools**.
- Investigated foodborne illness reports through exposure reviews, facility assessments, and documented **follow up monitoring**.
- Permitted **temporary food vendors** at community events through setup reviews, safe food checks, and ongoing **surveillance**.
- Recorded permits, complaints, inspections, citations, and enforcement activity in CDP and EnerGov systems.
- Translated regulatory findings into practical corrective steps during site visits and public presentations.
- Assessed storm damaged facilities and **emergency shelters**, coordinating sanitary response with partner agencies.

Environmental Health Specialist, Food, Lodging and Institutions

Piedmont Environmental Services 📅 July 2021 - December 2023 📍 Greensboro, NC

Managed an assigned **environmental health** workload spanning food service, lodging, institutional, childcare, and recreational water facilities. Combined inspection judgment, regulatory consultation, written reporting, continuing education, and partner coordination to support safe operations and timely compliance.

- Managed inspections across food service, lodging, institutional, childcare, and recreational water facilities.
- Evaluated foodborne risks, equipment condition, employee hygiene, temperature controls, and safe handling practices.
- Investigated **complaints** and suspected violations, producing **written reports** with evidence for compliance monitoring.
- Advised operators on regulatory requirements while maintaining clear **enforcement** documentation and follow up.
- Applied updated guidance through **continuing education**, improving consistency across **permitting** and inspection decisions.
- Coordinated referrals with state and local partners during broader public health investigations.

Environmental Health Technician, Food and Institutional Programs

MY CAREER

● Senior Environmental Health Specialist, Food, Lodging and Institutions at Cape River Health District (2.8 Years)

● Environmental Health Specialist, Food, Lodging and Institutions at Piedmont Environmental Services (2.4 Years)

● Environmental Health Technician, Food and Institutional Programs at Blue Ridge County Health Collaborative (1 Years)

Supported supervised environmental health **fieldwork** through facility data collection, **sanitation assessment**, record entry, public communication, and event assistance. Built practical experience in North Carolina inspection documentation, complaint response, and safe food education.

- Collected facility observations for food and institutional inspections, organizing records for specialist review.
- Entered permit, **inspection**, and complaint data into program systems, checking records for completeness.
- Prepared educational materials explaining sanitation practices and **safe food handling** for community audiences.
- Accompanied specialists during complaint investigations and temporary food events, documenting evidence and **surveillance**.
- Completed supervised field training aligned with North Carolina **environmental health practice** requirements.

PROJECTS

Emergency Shelter Sanitation Assessment 📅 2024

Supported post storm facility assessments and shelter sanitation reviews, documenting conditions and coordinating practical corrective actions with partner agencies.

Temporary Food Event Surveillance 📅 2023

Applied safe food handling reviews, vendor permitting checks, and event surveillance practices across community food service operations.

LEADERSHIP & AWARDS

- Selected for senior environmental health responsibilities after demonstrating sound field judgment and dependable regulatory documentation.
- Recognized by program colleagues for clear operator education, practical corrective guidance, and reliable follow up.
- Entrusted with emergency facility and shelter assessments during severe weather response activities.
