STRENGTHS

- 

Field Judgment

Changing traffic, weather, and grade conditions required quick choices; crews relied on sound equipment approaches.
- 

Equipment Operation

Dump trucks, loaders, rollers, and sweepers supported daily assignments, with safe movement kept at the center.
- 

Roadway Repair

Potholes and damaged surfaces received practical preparation, hauling, placement, and compaction from start through cleanup.
- 

Traffic Control

Cones, signs, and temporary layouts helped protect crews, drivers, pedestrians, and special events when conditions shifted.
- 

Crew Support

Cross training across street and drainage work gave supervisors more flexibility during emergencies and schedule changes.

SKILLS

- Heavy equipment operation

Dump trucks

Loaders

Rollers

Street sweepers

Roadway maintenance

Asphalt repair

Paving preparation

Material hauling

Compaction

Pothole repair

Drainage maintenance

Traffic control

Work zone safety

On call response
- SUMMARY
- Street maintenance **equipment operator** with four years of field experience supporting roadway repair, paving preparation, drainage upkeep, traffic control, and public right of way maintenance. Operates dump trucks, loaders, rollers, **street sweepers**, chainsaws, chippers, jackhammers, and related power equipment in active work zones. Completes asphalt and pothole repair, material hauling, roadway compaction, ditch maintenance, vegetation clearing, debris removal, and curb and sidewalk work. Reads work orders and maintenance documentation, communicates changing field conditions, and makes safe decisions around traffic, weather, grades, utilities, and public activity. Holds a valid **Texas Driver's License** and **Class A Commercial Driver's License**, with practical experience supporting on call responses, emergency repairs, special events, PPE requirements, and cross training across street, drainage, and traffic maintenance functions.
- EXPERIENCE
- Equipment Operator, Street Maintenance
- Hill Country Road Services

 April 2024 - Present

 Killeen, TX
- Operates heavy equipment and power tools for roadway repair, paving preparation, drainage upkeep, vegetation clearing, debris removal, traffic control, and on call municipal field assignments. Coordinates equipment movement with crews, reads maintenance documentation, communicates changing conditions, and applies safe judgment across active work zones.
- Operated **dump trucks, loaders**, rollers, and street sweepers during active roadway maintenance assignments.
 - Prepared damaged roadway sections through removal, aggregate hauling, milling support, and material compaction.
 - Completed pothole, curb, sidewalk, ditch, and drainage repairs across changing field conditions safely.
 - Set cones, signs, and **traffic control** devices for maintenance work and community events.
 - Used chainsaws, chippers, **jackhammers**, and **power tools** for vegetation and debris removal.
 - Read work orders, reported field conditions, and supported **on call** emergency responses independently.
- Maintenance Equipment Operator, Street and Drainage
- Central Texas Infrastructure Services

 March 2022 - March 2024

 Waco, TX
- Supported street and drainage crews with equipment operation, material staging, roadway patching, drainage restoration, right of way maintenance, traffic control, and emergency field work. Completed pre use inspections, reviewed maintenance records, communicated hazards, and cross trained across multiple maintenance disciplines.
- Supported roadway patches with dump truck hauling, loader operation, staging, and compaction.
 - Maintained **ditches** and rights of way through debris removal and **vegetation clearing**.
 - Performed asphalt handling, site cleanup, curb preparation, and roadside material placement.
 - Established work zone **traffic control** around equipment, crews, drivers, and pedestrians.
 - Completed pre use equipment checks and reviewed maintenance records before field deployment.
 - Cross trained across street, **drainage**, and traffic maintenance during weather events and repairs.
- PROJECTS
- Municipal Roadway Repair Support

 2025
- Supported coordinated roadway repair work involving failed asphalt removal, aggregate hauling, milling assistance, paving preparation, and compaction across active public work zones.
- Drainage and Right of Way Maintenance

 2023
- Maintained drainage paths and public rights of way through ditch clearing, debris removal, vegetation trimming, and field communication around changing conditions.
- 1/2
