STRENGTHS

Shipyard judgment

During complex repair periods, compared workmanship with specifications and pushed timely corrections before small issues affected readiness.

Regulatory coordination

Coast Guard personnel, engineers, and yard teams received clear records and timely answers, keeping technical decisions moving.

Deficiency closure

Tracked each finding through evidence and verification. That habit gave inspectors confidence during certification reviews.

Operational readiness

Turnover checks connected repaired systems with real vessel use, helping crews accept equipment with fewer surprises.

Team development

Supervisors and inspectors often sought practical guidance on documentation, safe work controls, and regulatory traceability.

SUMMARY

Maritime operations and shipyard inspection manager with 10 years of progressive experience overseeing inspected passenger **vessel repair**, construction, survey, modification, and return to service activities. Holds a current **United States Coast Guard** Merchant Mariner Credential as Master, an active **Transportation Worker Identification Credential**, and current STCW certification. Leads owner side oversight across propulsion, electrical, structural, piping, fire protection, lifesaving, security, safety, and stability work. Coordinates technical decisions with Coast Guard personnel, naval architects, engineers, contractors, shipyard leaders, and vendors. Maintains Certificates of Inspection, Vessel Security Plans, **Fire and Safety Plans**, Stability Letters, deficiency records, contract requirements, and verification evidence. Brings practical judgment that protects compliance, operational readiness, and safe passenger transportation.

EXPERIENCE

Shipyard Operations Manager

Coastal Passage Marine Services 📅 January 2024 - Present 📍 Mobile, AL

Direct owner side oversight for inspected passenger vessel repair and modification periods, coordinating concurrent shipyard work, regulatory reviews, contract controls, certification records, and return to service decisions. Mentor supervisors and inspectors while maintaining business focus on safe **public transportation**.

- Directed passenger vessel repair periods against **specifications**, contracts, Coast Guard requirements, and return to service priorities.
- Coordinated inspections with Coast Guard personnel, **naval architects**, engineers, contractors, yard supervisors, and marine vendors.
- Evaluated propulsion, electrical, structural, piping, fire protection, lifesaving, and safety system workmanship for corrective action.
- Controlled **Certificates of Inspection**, security plans, fire plans, **stability letters**, tests, and certification closeout evidence.
- Sequenced inspections and vendor demonstrations around critical path milestones without compromising safety decisions or **contract requirements**.
- Mentored supervisors on deficiency documentation, contract verification, regulatory traceability, and vessel readiness checks.

Senior Marine Operations Supervisor

Bayline Ferry Operations 📅 March 2021 - December 2023 📍 Pensacola, FL

Supervised passenger ferry maintenance and **operational readiness**, translating vessel findings into practical repair scopes and coordinating drydock execution. Supported Coast Guard preparation, engineering review, contractor acceptance, and handback decisions across safety critical systems.

- Supervised ferry maintenance and readiness work, translating vessel findings into prioritized shipyard repair scopes.
- Verified drydock **workmanship**, witnessed system tests, and escalated structural or machinery findings for engineering review.
- Prepared vessels for Coast Guard inspections by reconciling **deficiencies** and validating safety, security, fire, and stability records.
- Reviewed **repair** proposals with naval architects and **vendors**, identifying operational impacts before field authorization decisions.
- Established turnover checks for repaired machinery and safety systems, strengthening acceptance evidence during vessel handback.
- Coached licensed and unlicensed personnel on inspection readiness, safe work controls, documentation, and regulatory communication.

Vessel Maintenance and Compliance Supervisor

Harbor Transit Marine 📅 June 2018 - February 2021 📍 Tampa, FL

MY CAREER

● Shipyard Operations
Manager at Coastal Passage
Marine Services (2.8 Years)

● Senior Marine Operations
Supervisor at Bayline Ferry
Operations (2.8 Years)

● Vessel Maintenance and
Compliance Supervisor at
Harbor Transit Marine (2.7
Years)

● Licensed Deck Officer at Gulf
Coast Passenger Marine (1.8
Years)

Coordinated maintenance, surveys, and regulatory readiness for inspected passenger vessels serving scheduled **public transportation** routes. Applied federal maritime requirements to repair decisions, deficiency tracking, documentation control, and shipyard verification activities.

- Coordinated maintenance, surveys, and regulatory readiness for inspected **passenger vessels** in scheduled public service.
- Tracked machinery, electrical, hull, fire safety, and lifesaving deficiencies through repair verification for Coast Guard review.
- Supported shipyard periods by comparing completed workmanship with specifications and witnessing functional system tests.
- Maintained security, fire, safety, stability, inspection, and maintenance records before certification activities.
- Applied 46 CFR requirements to maintenance decisions and escalated conditions affecting safe service or certification.
- Developed repair history reviews that helped planners define complete work packages for later shipyard periods.

Licensed Deck Officer

Gulf Coast Passenger Marine 📅 July 2016 - May 2018 📍 New Orleans, LA

Operated inspected passenger vessels as a licensed deck officer, supporting navigation, crew coordination, passenger safety, equipment inspections, Coast Guard examinations, contractor access, and repair acceptance activities.

- Operated inspected **passenger vessels** with responsibility for navigation, crew coordination, passenger safety, and compliance.
- Inspected deck, lifesaving, fire safety, communications, and security equipment, initiating maintenance actions when needed.
- Supported Coast Guard examinations by presenting records, demonstrating equipment readiness, and coordinating corrective work.
- Documented machinery and structural observations for maintenance planning and shipyard repair scopes.
- Participated in dockside tests following repairs and confirmed operational behavior before service acceptance.
- Maintained **TWIC** access and applied vessel security procedures during operations, contractor access, and maintenance periods.

PROJECTS

Passenger Vessel Certification Recovery 📅 2025

Partnered with engineering, shipyard, and regulatory teams to close vessel deficiencies, organize verification evidence, and support safe return to passenger service.

Fleet Repair Scope Development 📅 2022

Connected operating crews with planners and naval architects to convert recurring vessel findings into clearer repair packages and practical acceptance checks.

LEADERSHIP & AWARDS

- Recognized by marine leadership for dependable Coast Guard inspection preparation and certification record control.
- Selected to mentor supervisors and inspectors on deficiency evidence, contract verification, and readiness decisions.
- Entrusted with owner representative duties during complex passenger vessel shipyard periods and technical reviews.

EDUCATION

Bachelor's Degree in Marine Transportation

Texas A&M University at Galveston 🎓 GPA: 4.0 📅 2016 📍 Galveston, TX

Coursework: Marine safety, vessel operations, navigation, maritime law, ship construction

CERTIFICATIONS

- U.S. Coast Guard Merchant Mariner Credential, Master 📅 2026
- Transportation Worker Identification Credential, TWIC 📅 2026
- STCW Certification 📅 2026

TECHNICAL SKILLS

- **Maritime Regulations:** 46 CFR Subchapter H, 46 CFR Subchapter M, STCW
- **Vessel Certification:** Certificates of Inspection, Stability Letters, inspection records
- **Security Documentation:** Vessel Security Plans, TWIC, access procedures
- **Fire Safety Systems:** Fire Plans, fire protection, lifesaving equipment
- **Marine Engineering:** Propulsion systems, electrical systems, piping systems
- **Shipyard Management:** Repair projects, construction projects, modification projects
- **Inspection Coordination:** USCG inspections, surveys, technical examinations
- **Contract Controls:** Contract requirements, workmanship review, scope verification
- **Deficiency Management:** Corrective actions, verification evidence, closeout tracking
- **Passenger Operations:** Ferry operations, vessel readiness, public transportation

PROFESSIONAL AFFILIATIONS

- Professional member, United States Coast Guard licensed mariner community, supporting shared safety and compliance practices.
- Participant, passenger vessel operations network, exchanging practical approaches for readiness, inspections, and safe service.
