STRENGTHS

Patient Assessment

Structured assessments revealed changing patient needs during transports, guiding timely care, reassessment, and medical control contact.

Airway Care

Airway positioning, ventilation, and i gel use supported safer BLS care; peers trusted careful preparation during difficult calls.

Fireground Support

Pump operations, hose deployment, ladders, rescue, and overhaul came together during drills and active scenes with steady coordination.

Readiness Discipline

Regular inspections and inventory checks caught service issues early, keeping ambulances, apparatus, and supplies prepared for assignments.

Record Accuracy

Clear patient reports and operational logs preserved continuity of care, and supervisors could rely on complete field details.

SUMMARY

Fire Medic and Virginia **EMT Basic** with three years of combined fire rescue and emergency medical experience in municipal environments. Delivers basic life support, **patient assessment**, airway care, CPR, semi automatic defibrillation, authorized medication administration, ambulance transport, fire suppression, rescue support, and incident documentation. Operates **emergency vehicles** and fire apparatus with steady attention to scene safety, regional protocols, medical control direction, and patient handoffs. Maintains readiness through apparatus inspections, equipment sanitation, inventory control, physical fitness, route familiarization, station drills, and multi company training. Supports hazardous materials response, **emergency decontamination**, pre fire planning, pump operations, hose deployment, ladders, salvage, and overhaul. Brings dependable field judgment and disciplined records management that support safe responses, effective teamwork, and consistent patient care.

EXPERIENCE

Firefighter, EMT Basic

Peninsula Community Fire & EMS 📅 January 2025 - Present 📍 Newport News, VA

Supports ambulance and fire apparatus operations across emergency medical, fire suppression, rescue, training, inspection, and station readiness activities. Provides BLS care under approved protocols while coordinating scene safety, equipment readiness, patient movement, and accurate documentation with fire and EMS partners.

- Stabilized emergency patients through structured assessments, airway care, CPR, defibrillation, and timely transport decisions.
- Used i gel airways and **authorized medications** under **medical control**, recording patient responses in care reports.
- Operated pumps, **hose lines**, ladders, and rescue equipment during suppression, rescue, salvage, and overhaul assignments.
- Inspected ambulances, apparatus, **life support equipment**, and inventories, correcting readiness issues before emergency deployment.
- Completed station drills, multi company training, fitness sessions, and route familiarization for dependable response coverage.
- Maintained **safety zones** and coordinated scene support during fire, EMS, and **hazardous materials** incidents.

EMT Basic

James River Emergency Services 📅 July 2023 - December 2024 📍 Williamsburg, VA

Delivered emergency and interfacility BLS care while driving ambulances, maintaining clinical continuity, supporting hazardous materials scenes, and protecting unit readiness. Managed patient assessments, airway interventions, documentation, equipment checks, supply control, and medical control communication across varied transport environments.

- Delivered **BLS** care during emergency calls and transports, identifying changes through repeated patient assessments.
- Drove ambulances under **EVOC** practices, selecting safe routes and coordinating patient movement with receiving facilities.
- Managed airway positioning, **ventilation**, **CPR**, defibrillation, and authorized medications during high acuity patient encounters.
- Supported **hazardous materials** scenes by establishing boundaries, requesting resources, and preparing decontamination support.
- Completed patient care reports, operational logs, supply records, and training documentation with accurate clinical details.
- Checked vehicles and medical equipment between calls, replenishing supplies and reporting defects before service return.

MY CAREER

3.2
YEARS

● Firefighter, EMT Basic at Peninsula Community Fire & EMS (1.8 Years)

● EMT Basic at James River Emergency Services (1.4 Years)

PROJECTS

Regional EMS Readiness Program 📅 2026

Improved daily response readiness through coordinated equipment checks, supply control, sanitation routines, route review, and documented serviceability checks across ambulance operations.

Fire Scene Safety Planning 📅 2025

Supported safer fireground operations through pre fire planning, safety zones, pump operations, hose deployment, rescue coordination, salvage, and overhaul preparation.

LEADERSHIP & AWARDS

- Recognized by fire and EMS peers for dependable patient care, calm scene support, and accurate operational reporting.
- Provided informal field leadership during apparatus readiness checks, station drills, and multi company training activities.
- Earned increased trust through consistent equipment accountability, safe driving practices, and reliable emergency assignment coverage.

EDUCATION

High School Diploma

Warwick High School 🎓 GPA: 3.5 📅 2022 📍 Newport News, VA

Coursework: Emergency response, health science, physical fitness, public safety

CERTIFICATIONS

- Virginia Emergency Medical Technician Basic 📅 2023
- Virginia Firefighter II 📅 2024
- Hazardous Materials Awareness and Operations 📅 2024
- Emergency Vehicle Operator Course 📅 2023
- CPR Certification 📅 2026
- NIMS ICS 100, 200, 700, and 800 📅 2024

TECHNICAL SKILLS

- **Emergency Medical Care:** BLS, primary assessment, secondary assessment
- **Airway Management:** i gel, ventilation, airway positioning
- **Resuscitation Equipment:** CPR, semi automatic defibrillator, life support equipment
- **Medication Protocols:** medical control, physician orders, authorized medications
- **Fire Apparatus Operations:** fire apparatus, pumps, hose lines
- **Rescue Operations:** ladders, rescue equipment, salvage and overhaul
- **Hazardous Materials:** Hazardous Materials Awareness, Operations, decontamination
- **Emergency Vehicles:** ambulance driving, EVOC, patient transport
- **Incident Management:** NIMS ICS 100, NIMS ICS 200, NIMS ICS 700
- **Incident Documentation:** patient care reports, operational logs, training records
- **Readiness Inspections:** apparatus inspections, equipment testing, inventory control
- **Fire Prevention Planning:** pre fire plans, smoke detectors, safety zones

PROFESSIONAL AFFILIATIONS

- Virginia emergency medical services community, supporting regional protocols, medical control, and coordinated patient transport.
- Municipal fire rescue training teams, participating in station drills, multi company exercises, and physical readiness activities.
