SUMMARY

Public health specialist with four years and four months supporting **communicable disease prevention**, client education, field outreach, interviewing, counseling, referral coordination, and confidential health documentation. Delivers **evidence based prevention** services for individuals and community audiences, gathers demographic, clinical, and risk factor information, and translates **public health laws**, regulations, and program procedures into clear guidance for diverse populations. Coordinates with physicians, hospitals, laboratories, community organizations, and partner agencies to support timely follow up and reliable health information. Maintains accurate program data, prepares reporting materials, presents to varied audiences, and applies **bilingual English and Spanish** communication in practical settings. Phlebotomy training, OSHA bloodborne pathogens training, current immunization compliance, and a valid Class C driver license support safe work across clinic and field environments.

EXPERIENCE

Public Health Program Specialist

June 2024 - Present

Desert Community Health Collaborative

Tucson, AZ

Supports sexually transmitted infection prevention across clinic and outreach settings, coordinating interviews, education, referrals, documentation, partner communication, data quality, presentations, and safe field operations.

- Coordinated infection prevention services across clinic and outreach settings, creating consistent follow up for clients.
- Conducted structured interviews capturing demographic, clinical, exposure, and behavioral risk information for accurate records.
- Provided **bilingual English and Spanish** counseling on testing, **risk reduction**, prevention, and behavior change.
- Maintained referral relationships with **physicians**, hospitals, laboratories, and **community organizations** for timely clinical information.
- Compiled encounter data, completed quality checks, and prepared organized materials for evaluation and reporting.
- Delivered **prevention presentations** at community events while following OSHA precautions and immunization requirements.

Community Health Educator

June 2022 - May 2024

Pima Wellness Partnership

Tucson, AZ

Delivered evidence based **health education**, screening support, outreach programming, structured interviews, referral coordination, database maintenance, presentations, and partner engagement for community health initiatives.

- Delivered evidence based **education** through individual sessions, outreach events, and partner hosted programs.
- Collected health histories and risk information through structured interviews for appropriate clinical referrals.
- Applied **phlebotomy training** during supervised screenings, following infection control and specimen handling procedures.
- Built relationships with neighborhood organizations and healthcare partners, strengthening continuity between outreach and follow up.
- Entered encounter information, reconciled incomplete records, and assembled data for program review.
- Prepared bilingual presentation materials that translated **public health** guidance into practical steps for varied audiences.

PROJECTS

Community Prevention Outreach Initiative 📅 2024

Coordinated bilingual prevention education, screening referrals, partner communication, and field materials across community settings, supporting accessible services and clear follow up.

Public Health Data Quality Review 📅 2023

Reviewed encounter records, corrected incomplete entries, organized program information, and prepared evaluation materials for community education planning.

LEADERSHIP & AWARDS

- Recognized by program colleagues for dependable follow through across client referrals, partner communication, and confidential records.
- Selected to deliver bilingual prevention education at community events serving varied audiences and health literacy levels.
- Trusted with supervised screening support through careful specimen handling, infection control, and safety practices.
