STRENGTHS

- 💧 **Drainage Maintenance**
Cleared culverts, ditches, channels, and easements, restoring access and helping crews maintain reliable drainage flow.
- 🔧 **Equipment Readiness**
Completed pre use inspections and reported leaks, tire concerns, and damaged parts before field delays developed.
- ⚠️ **Work Zone Safety**
Placed cones, signs, and barricades around active work, then adjusted traffic control as conditions changed.
- 👥 **Crew Coordination**
Kept task sequence, equipment availability, cleanup, and completion status clear when covering informal crew leader duties.
- 💬 **Resident Service**
Explained access limits near projects in a calm, respectful way, then routed service questions to supervisors.

SUMMARY

Heavy equipment operator with four years of field experience supporting street maintenance, storm water maintenance, drainage repair, concrete work, right of way access, and civil infrastructure operations. Operates loaders, backhoes, dump trucks, compactors, skid steers, municipal vehicles, machinery, and hand tools across active outdoor work zones. Completes asphalt patching, roadway base repair, culvert and ditch cleaning, concrete placement, headwall and flume repair, material hauling, vegetation removal, traffic control, equipment inspections, and **job site restoration**. Reads written work orders, follows verbal directions, performs measurements and basic mathematics, identifies hazards, and communicates clearly with residents, coworkers, supervisors, and public works crews. Holds a **Class A Commercial Driver's License** and **OSHA 10 Hour Construction Safety** training, with reliable performance in **changing weather** and physically demanding assignments.

EXPERIENCE

Heavy Equipment Operator

Red Oak Civil Works 📅 October 2024 - Present 📍 Grand Prairie, TX

Operate heavy equipment and municipal style vehicles across roadway, drainage, hauling, and restoration projects. Support crew sequencing, **work zone safety**, equipment readiness, and completion reporting while stepping into informal crew leader duties when assigned.

- Operate loaders, backhoes, **dump trucks**, and compactors after completing daily equipment checks.
- Execute **asphalt patching** and base repairs through excavation, grading, and compaction activities.
- Clean culverts, ditches, channels, and **rights of way** using equipment and **hand tools**.
- Haul dirt, rock, broken concrete, and spoil while securing loads for transport.
- Set cones, signs, and barricades for temporary **traffic control** around active excavation.
- Step into crew leader duties by confirming task sequence, cleanup, and completion status.

Equipment Operator

Trinity Road and Drainage Services 📅 September 2022 - September 2024 📍 Arlington, TX

Supported street and storm drainage rehabilitation across active civil work sites. Operated powered equipment, prepared concrete repairs, cleared vegetation, inspected machinery, staged materials, followed work orders, and communicated access information professionally with nearby residents.

- Supported street and storm drainage rehabilitation with **skid steers**, loaders, and dump trucks.
- Prepared concrete repairs for **culverts**, flumes, headwalls, and **approach slabs**.
- Cleared brush and trimmed **vegetation** around drainage structures and access areas.
- Performed pre use inspections and reported leaks, tire concerns, and damaged components.
- Used work orders, **verbal directions**, measurements, fractions, and material quantities daily.
- Interacted professionally with **residents** near work areas and referred service questions appropriately.

PROJECTS

Drainage Access Restoration 📅 2024

Cleared restricted drainage access around culverts, channels, and rights of way, then hauled debris and restored sites for safer crew entry and improved flow.

Roadway Base Repair 📅 2023

Supported asphalt and base repairs from excavation through compaction, using grade observations, crew measurements, equipment checks, and controlled material movement.

MY CAREER

- Heavy Equipment Operator at Red Oak Civil Works (1.9 Years)
- Equipment Operator at Trinity Road and Drainage Services (2 Years)

LEADERSHIP & AWARDS

- Recognized by crew supervisors for dependable attendance and consistent completion of outdoor field assignments.
- Selected for informal crew leader coverage when senior equipment operators were absent from daily work.
- Trusted with resident communication, work zone adjustments, and equipment readiness during active projects.

EDUCATION

High School Diploma

North Mesquite High School 🎓 GPA: 3.0 📅 2022 📍 Mesquite, TX

Coursework: Workplace safety, applied mathematics, technical reading, physical education

CERTIFICATIONS

- Class A Commercial Driver's License 📅 2025
- OSHA 10 Hour Construction Safety 📅 2024

TECHNICAL SKILLS

- **Heavy Equipment:** Loaders, backhoes, compactors
- **Municipal Vehicles:** Dump trucks, service vehicles, haul vehicles
- **Drainage Structures:** Culverts, flumes, headwalls
- **Roadway Maintenance:** Asphalt patching, base repair, concrete repair
- **Material Handling:** Dirt hauling, rock hauling, debris removal
- **Site Restoration:** Cleanup, grading, access restoration
- **Vegetation Control:** Brush clearing, tree trimming, vegetation removal
- **Traffic Control:** Cones, signs, barricades
- **Safety Practices:** Work zone safety, hazard identification, OSHA standards
- **Field Tools:** Shovels, rakes, hand tools
- **Equipment Inspection:** Pre use checks, leak reporting, tire inspection
- **Field Mathematics:** Whole numbers, fractions, decimals

PROFESSIONAL AFFILIATIONS

- Civil infrastructure field crews, roadway and drainage maintenance support.
- Public works coordination with operators, laborers, crew leads, supervisors, and residents.
