STRENGTHS

Clinical Judgment

Screened histories, eligibility, precautions, and contraindications before vaccination, giving clients safer, clearer care.

Team Coaching

Used competency reviews and case consultation to support nurses, and peers sought guidance on difficult schedules.

Vaccine Stewardship

Kept inventory, temperature records, storage, and accountability aligned, so clinic teams could trust supply readiness.

Community Education

Explained vaccine schedules in accessible language across schools and outreach sites, helping families make informed choices.

Emergency Response

Joined mass vaccination and dispensing drills, bringing calm organization when patient volume and community need rose.

SUMMARY

Public health registered nurse with 10 years supporting immunization services, community health, clinical care, and program leadership. Provides clinical direction for nursing teams, aligns practice with **nurse protocols**, and protects vaccine quality through careful storage, temperature monitoring, accountability, documentation, and infection control. Reviews **immunization histories**, identifies **overdue vaccines**, evaluates eligibility and contraindications, administers vaccines across age groups, and responds promptly to adverse reactions. Uses coverage data and population health principles to guide outreach through clinics, schools, childcare sites, and community partnerships. Staff coaching, culturally responsive education, emergency preparedness, confidential records, and quality assurance have shaped steady service delivery across diverse settings. Prepared to contribute sound clinical judgment, practical supervision, and compassionate community care within a **public health nursing** program.

EXPERIENCE

Immunization Program Nurse Supervisor

Coastal Population Health Network 📅 August 2022 - Present 📍 Savannah, GA

Directs community immunization operations, supervises nursing practice, and coordinates clinic, school, childcare, outreach, and emergency vaccination services. Supports accurate records, vaccine stewardship, staff readiness, quality assurance, and population health planning.

- Directed daily immunization workflows, aligning vaccine care, records, and nursing practice with current protocols.
- Coached nurses through competency reviews, case consultation, and schedule questions involving **precautions** and **contraindications**.
- Managed **vaccine inventory**, temperature logs, storage practices, **accountability** records, and emergency vaccine procedures.
- Reviewed **coverage data** with staff, shaping outreach clinics for communities with limited vaccination access.
- Coordinated school, childcare, provider, and community partnerships through culturally responsive education and clinic planning.
- Led preparedness exercises for **mass vaccination** and dispensing, supporting organized care for special needs populations.

Senior Public Health Nurse

Magnolia Community Health Center 📅 January 2020 - July 2022 📍 Macon, GA

Delivered age appropriate immunization care while guiding newer clinicians, supporting outbreak clinics, and maintaining safe vaccine operations. Combined assessment, education, documentation, follow up, and rapid clinical response across routine and high volume services.

- Reviewed histories, identified overdue doses, and administered vaccines after **eligibility** and contraindication screening.
- Assessed clients and adjusted care plans according to condition, vaccine needs, protocols, and response.
- Monitored post vaccination clients, recognized **adverse reactions**, and completed clinical response documentation and follow up.
- Trained newer staff in preparation, administration, documentation, infection prevention, storage, and client education.
- Explained schedules, school entry requirements, vaccine safety, multidose series, and preventable disease risks.
- Supported outbreak clinics through accurate records, supply readiness, direct care, and **leadership communication**.

A donut chart with a white center. The center contains the text "10.1" in a large, bold, black font, with "YEARS" in a smaller, black font below it. The donut ring is divided into five segments of varying shades of blue. The largest segment, representing 10.1%, is a medium blue. The other segments are in lighter and darker shades of blue.

10.1
YEARS

● Registered Nurse at Riverbend Family Health Services (11 Months)

- Provided immunization services across clinics, schools, and outreach sites for diverse age groups.
- Screened clients, referred health concerns, and documented confidential care for follow up coordination.
- Maintained vaccine records, inventory documentation, **temperature monitoring**, and supply controls for **accountability**.
- Partnered with **schools** and **community organizations** to schedule outreach and explain vaccine recommendations clearly.
- Reviewed clinic data and missed opportunities, proposing workflow changes for clients needing additional doses.
- Participated in drills covering pandemic response, **mass vaccination**, **sheltering**, and public health emergencies.

- Delivered preventive nursing care through assessment, medication administration, education, and infection prevention.
- Reviewed health histories and vaccination records, flagging incomplete information for provider follow up.
- Administered ordered vaccines and medications, documenting treatment and monitoring immediate patient concerns.
- Educated patients and caregivers using communication matched to age, health literacy, and individual needs.
- Maintained confidential records and coordinated referrals when assessments identified needs beyond visit scope.
- Supported elevated patient volume through organized triage, supply preparation, teamwork, and calm response.

Supported preparedness exercises involving mass vaccination, mass dispensing, sheltering, and pandemic response, helping teams practice organized care during urgent events.

- Selected for Public Health Emergency Preparedness Drill Team leadership, 2023.
- Recognized for dependable community vaccination outreach planning, 2022.
