

Luka Grimes

Instrumentation & Controls Engineer

AUGUST 20, 2026

Hiring Manager
Enercon Solutions, LLC
Orlando, FL

Dear Hiring Manager,

I am excited to express my interest in the Instrumentation and Controls Engineer position at Enercon Solutions, LLC, where I can leverage my four years in nuclear power environments to contribute effectively to your esteemed organization and help facilitate the safe operation of your projects.

In my current role as an Instrumentation and Controls Engineer at TechPower Engineering, I build precise drawings that not only meet but often exceed client expectations, ensuring strict adherence to regulatory standards. Collaborating with numerous teams has sharpened my abilities to communicate effectively, fostering lasting partnerships that drive success.

During my tenure at Nuclear Design Associates, I dived into the intricacies of control systems for nuclear projects. I tackled issues head-on, transforming challenges into opportunities for growth, often enhancing reliability. It was insightful to witness how effective teamwork fuels innovation.

I understand the importance of staying current with advanced design techniques. My drive stems from a desire to continuously improve. I would love to bring this enthusiasm to your team, promoting excellence while ensuring projects stay aligned with stringent quality assurance measures.

Nurturing client relationships stands at the forefront of my priorities. I know that clear communication can bridge gaps and build trust. I'd enjoy the chance to promote Enercon's commitment to safety and reliability in every interaction.

Thank you for considering my application.

Sincerely,

Luka Grimes
