SUMMARY

Inventory control and **warehouse logistics** professional with three years supporting shipping, receiving, order fulfillment, **physical distribution**, material flow, and inventory accuracy in busy distribution environments. Skilled with **warehouse management systems**, RF scanners, Microsoft Office, inventory reports, UPS and FedEx shipping workflows, **transportation routing**, and transaction documentation. Prepares finished products, raw stock, parts, supplies, assemblies, and equipment for shipment while verifying quantities, labels, packaging, schedules, and carrier requirements. Cross trained in receiving and parts room functions, with practical experience operating forklifts and pallet jacks and moving materials weighing 40 to 50 pounds. Applies organization, basic math, time management, written communication, and careful recordkeeping across independent and team based work. Supports dependable customer service through accurate material availability and timely warehouse execution.

EXPERIENCE

Inventory Control Specialist

Hoosier Distribution Services 📅 April 2025 - Present 📍 Evansville, IN

Supports central distribution operations through inventory transactions, shipment preparation, receiving coverage, carrier coordination, and material availability reporting. Works independently and with warehouse teams to maintain accurate records, meet customer timing needs, and keep inbound and outbound activity moving.

- Verified receipts, picks, transfers, and staging using warehouse systems and **RF scanners** for accurate inventory records.
- Prepared parts, assemblies, supplies, and equipment with labels, packaging, routing, and carrier documents for shipment.
- Reconciled **physical counts** with system balances, researching discrepancies and documenting corrections before **order fulfillment** continued.
- Coordinated UPS and FedEx pickups by matching carrier services and routing requirements with customer delivery timing.
- Cross trained in receiving and **parts room** functions, maintaining stock locations during changing workload demands.
- Tracked open orders, receipts, exceptions, and **material availability** through Microsoft Excel reports for daily **shipping** priorities.

Warehouse Logistics Associate

Midwest Fulfillment Partners 📅 September 2023 - March 2025 📍 Terre Haute, IN

Handled inbound processing, order fulfillment, material handling, shipment staging, and inventory transactions across a fast paced warehouse. Balanced carrier cutoffs, customer priorities, safe equipment operation, and accurate handoffs while supporting dependable day shift distribution.

- Processed finished goods, **raw stock**, parts, supplies, and equipment, verifying condition before storage assignment.
- Picked, packed, wrapped, and staged customer orders according to **shipment schedules** and documented routing procedures.
- Moved heavy materials with forklifts and pallet jacks between receiving, storage, **production support**, and **outbound** areas.
- Recorded each material handoff with RF scanners and warehouse software, preserving traceability for inventory counts.
- Organized daily workload around carrier cutoffs and order priorities, keeping shipment preparation accurate during peak periods.
- Reported shortages, **damaged materials**, and order exceptions to inventory and **customer service contacts** for timely resolution.

STRENGTHS

- ✓ **Inventory accuracy**
Physical counts were compared with system balances, and discrepancies were researched before orders moved forward.
- 🚚 **Shipment coordination**
UPS and FedEx pickups were aligned with routing instructions and customer timing, keeping outbound work orderly.
- ♥ **Receiving coverage**
Cross training in receiving and parts room work helped maintain material availability when workload demands shifted.
- ⚙️ **Safe material handling**
Forklifts and pallet jacks moved heavy items between warehouse areas with steady attention to safe procedures.
- 👥 **Customer service**
Shortages, damage, and order exceptions were communicated early, giving customer contacts room to resolve issues.
