STRENGTHS

- 🔍 **Planning issue diagnosis**
Traced a difficult planning failure from source records through Kinaxis, giving teams a clear path to correction.
- 🔗 **Integration support**
When SAP data did not reach planning views, followed each handoff and restored confidence in daily analysis.
- 👥 **User partnership**
Remote planners received clear updates and practical guidance, turning urgent questions into workable next steps.
- ✅ **Release coordination**
Brought process experts and programmers together around test evidence, making software changes easier to approve.
- ⚙️ **Planning configuration**
Built useful workbooks and task flows around real planner needs, and became a dependable resource for complex views.

Solution development

Technical troubleshooting

SUMMARY

Kinaxis IT Analyst with eight years supporting supply chain planning applications, SAP integrated manufacturing environments, and enterprise MRP operations. Provides hands on support for **Kinaxis RapidResponse** and Maestro, including **control set tables**, macros, profiles, global settings, workbook links, scenarios, filters, dashboards, widgets, hierarchies, and task flows. Connects functional requirements with solution development, testing, deployment support, and practical user assistance. Investigates MRP variances, PROP imports, RCCP data, automated chains, scenarios, and integration issues across **SAP ECC 6.0**, **SAP Business Warehouse**, and Kinaxis platforms. Works effectively with process experts, programmers, IT analysts, planners, remote customers, and business partners. Kinaxis Author 1, Contributor 1, Admin 1, and Author 2 qualified, with clear communication and independent delivery.

EXPERIENCE

Senior Kinaxis IT Analyst

Summit Aeronautics Solutions 📅 July 2023 - Present 📍 Raleigh, NC

Owns Kinaxis RapidResponse and Maestro sustainment for manufacturing planners across multiple operations. Leads issue resolution, integration analysis, planning configuration, requirements clarification, testing, and deployment coordination with process experts, programmers, and remote users.

- Protected daily MRP execution by resolving Kinaxis planning issues across multiple manufacturing operations.
- Maintained control set tables, macros, profiles, settings, **workbook links**, scenarios, and **site filters**.
- Traced **SAP ECC 6.0** and SAP Business Warehouse failures through **automated chains** and Kinaxis consumption.
- Reviewed MRP variances with **Production Planning** and **Material Management** specialists, then implemented tested corrections.
- Built workbooks, dashboards, widgets, hierarchies, filters, and task flows for supply and capacity planning.
- Coordinated requirements, solution design, testing, software changes, and deployments with technical and business teams.

Business Systems Analyst, Supply Chain

Blue Ridge Manufacturing Technologies 📅 March 2021 - June 2023 📍 Durham, NC

Supported Kinaxis RapidResponse integrated with **SAP ECC 6.0** across production planning, procurement, supplier coordination, and manufacturing material flows. Converted business requests into tested configurations while sustaining remote customer relationships.

- Supported Kinaxis planning operations for production, **procurement**, suppliers, and **manufacturing** material flows.
- Built planning **workbooks** and scenario views for operations requirements and RCCP decisions.
- Imported PROP and RCCP data, validated source records, and reconciled exceptions before **simulation**.
- Converted functional requests into configuration specifications and test cases for controlled releases.
- Diagnosed workbook, filter, hierarchy, and integration defects through structured **technical troubleshooting**.
- Maintained remote customer relationships through Excel analysis, Word documentation, and PowerPoint briefings.

ERP Planning Systems Analyst

Piedmont Industrial Components 📅 June 2019 - February 2021 📍 Greensboro, NC

LANGUAGES

MY CAREER

- Senior Kinaxis IT Analyst at Summit Aeronautics Solutions (3.2 Years)
- Business Systems Analyst, Supply Chain at Blue Ridge Manufacturing Technologies (2.2 Years)
- ERP Planning Systems Analyst at Piedmont Industrial Components (1.7 Years)
- Junior Business Systems Analyst at Carolina Precision Manufacturing (11 Months)

Supported SAP ECC 6.0 planning and Material Management processes for component manufacturing. Investigated planning exceptions, tested connected system changes, reconciled operational data, and supported distributed users during production operations.

- Supported **SAP ECC 6.0** planning and **Material Management** processes for component manufacturing.
- Investigated master data, transaction, and interface conditions affecting materials and production schedules.
- Executed functional testing for **ERP** and connected planning system changes before deployment.
- Created Excel reconciliations covering inventory, procurement, production, and planning outputs.
- Provided developers with reproducible interface failure **scenarios** and validated business requirements.
- Supported distributed users through remote troubleshooting and practical process guidance.

Junior Business Systems Analyst

Carolina Precision Manufacturing 📅 June 2018 - May 2019 📍 Winston Salem, NC

Supported manufacturing systems used by planners and material teams under senior guidance. Built practical experience with MRP exceptions, production planning, procurement, supplier data, testing, documentation, and remote user support.

- Supported manufacturing systems used by planners and material teams across daily operations.
- Analyzed routine **MRP** exceptions and documented causes for senior analyst review.
- Prepared functional test scripts and executed controlled **production planning** test cycles.
- Maintained user documentation and issue records for application sustainment and release validation.
- Compared ERP extracts in Excel and identified mismatched planning records for review.
- Provided responsive remote support while developing disciplined troubleshooting and communication practices.

PROJECTS

SAP and Kinaxis Integration Support 📅 2024

Improved investigation of planning data movement between SAP ECC 6.0, SAP Business Warehouse, and Kinaxis by tracing automated chains, validating source records, and documenting repeatable resolution steps.

PROP and RCCP Planning Data Flow 📅 2023

Supported cleaner simulation inputs through PROP and RCCP imports, source validation, exception reconciliation, and planning views that helped manufacturing teams assess capacity and material needs.

LEADERSHIP & AWARDS

- Kinaxis Author 2 qualification recognized for advanced platform authoring capability in 2023.
- Trusted senior analyst for cross team issue resolution, deployment coordination, and remote planner support.
- Selected to guide distributed users through complex MRP variance and integration investigations.

EDUCATION

Bachelor's Degree in Information Systems

North Carolina State University 🎓 GPA: 3.5 📅 2018 📍 Raleigh, NC

Coursework: Production Planning, Enterprise Resource Planning, Database Systems, Systems Analysis

CERTIFICATIONS

- Kinaxis Author 1 📅 2021
- Kinaxis Contributor 1 📅 2021
- Kinaxis Admin 1 📅 2022
- Kinaxis Author 2 📅 2023

TECHNICAL SKILLS

- **Kinaxis Platforms:** RapidResponse, Maestro, Author 1
- **Kinaxis Qualifications:** Contributor 1, Admin 1, Author 2
- **SAP Systems:** SAP ECC 6.0, SAP Business Warehouse, ERP
- **Planning Configuration:** Control set tables, Macros, Profiles
- **Kinaxis Workbooks:** Workbooks, Workbook links, Core workbooks
- **Planning Views:** Dashboards, Widgets, Scenario perspectives
- **Data Controls:** Site filters, Hierarchies, Filters
- **Planning Operations:** MRP, PROP, RCCP
- **Supply Chain Functions:** Production Planning, Material Management, Procurement
- **Testing and Delivery:** Requirements gathering, Solution development, User acceptance testing
- **Microsoft Office:** Excel, Word, PowerPoint
- **Integration Support:** Automated chains, Scenarios, Data integration

PROFESSIONAL AFFILIATIONS

- Kinaxis practitioner community participant focused on RapidResponse and Maestro planning support.
- Supply chain systems professional connected with manufacturing planning and ERP integration peers.
