STRENGTHS

-  **Pipefitting Accuracy**
Connection checks caught poor seating early. That small habit kept backfill work cleaner and reduced disruption near finished landscapes.
-  **Field Reliability**
Variable hours and weekend coverage became a dependable part of project support. Supervisors could count on steady follow through.
-  **Safety Discipline**
PPE stayed consistent around traffic, dust, noise, and equipment. Safe routines made demanding outdoor work more manageable.
-  **Tool Versatility**
Hand tools and landscape equipment supported both installation and restoration. Crews gained useful help when work shifted unexpectedly.
-  **Physical Stamina**
Long shifts included lifting, kneeling, walking, and repetitive motion. Consistent pace helped assignments reach closeout without shortcuts.

SKILLS

- Irrigation pipefitting

1/2 inch to 4 inch pipe

Pipe fitting and assembly

Irrigation installation

Hand tools

Landscape equipment

Material handling

Workplace safety

Manual labor

Task execution

SUMMARY

Advanced landscape irrigation pipefitting apprentice with three years of progressive field experience supporting commercial installations, landscape renovations, and irrigation restoration. Fits and assembles **1/2 inch through 4 inch pipe**, prepares connections, stages materials, follows foreman direction, and checks alignment before backfill. Uses shovels, rakes, cutters, mowers, trimmers, blowers, and edgers safely around active work zones. Maintains required footwear, **high visibility clothing**, hand, eye, hearing, and head protection during outdoor assignments. Reliable through heat, cold, sunlight, dust, noise, traffic, and variable schedules, including weekends. Handles lifting up to 50 pounds plus sustained standing, walking, bending, kneeling, stooping, twisting, and repetitive motion. Holds a valid **California driver's license** and **OSHA 10 Hour Construction Safety** certification.

EXPERIENCE

Landscape Irrigation Pipefitter Apprentice

Valley Green Irrigation Services

 October 2024 - Present

 Fresno, CA

- Support supervised commercial **irrigation installations** across planting beds, turf zones, and renovation areas. Convert foreman direction into staged materials, prepared trenches, fitted pipe, inspected connections, and orderly closeout. Maintain safe production through variable outdoor conditions, equipment use, and physically demanding field assignments.
- Fit 1/2 inch through 4 inch irrigation pipe across **planting beds, turf zones**, and renovation areas.
 - Stage materials and prepare trenches from foreman direction, keeping daily installation sequences orderly.
 - Inspect alignment, fittings, and seating before backfill, catching connection issues before landscape disruption.
 - Use shovels, rakes, cutters, and **hand tools** with required footwear, visibility, hand, eye, hearing, and **head protection**.
 - Operate mowers, trimmers, blowers, and edgers safely during restoration near completed irrigation work.
 - Carry materials up to **50 pounds** through heat, cold, sunlight, dust, noise, and active traffic.

Irrigation Pipefitter Apprentice

Sierra Vista Landscape Contractors

 September 2023 - September 2024

 Visalia, CA

- Built foundational **pipefitting** capability on supervised landscape projects spanning measurement, preparation, assembly, trench work, and restoration. Supported crew productivity through organized staging, safe **manual labor**, equipment care, and dependable coverage during weekend and variable hour assignments.
- Measured, prepared, fitted, and positioned small and medium diameter pipe for dependable water distribution.
 - Staged fittings, tools, and pipe near active work zones, keeping access routes orderly and safe.
 - Followed directed trench, connection, cleanup, and restoration tasks, earning broader field assignments.
 - Applied safe lifting, bending, kneeling, stooping, and walking practices across uneven outdoor surfaces.
 - Used hand and landscape tools around **dust**, pollen, insects, loud equipment, and changing temperatures.
 - Covered weekend and variable hour assignments, supporting dependable project closeout during schedule changes.
