

Jaxon Beltran

Lead User Experience (UX) Designer

JUNE 26, 2026

Hiring Manager
Digital Innovations
Chicago, IL

Dear Hiring Manager,

I am excited to apply for the Lead User Experience (UX) Designer role at Digital Innovations, an organization that thrives on creating simple yet engaging experiences in the intricate world of cross-border payments, which has been my passion for over eight transformative years within the fintech sector.

During my tenure at Innovative Tech Solutions, I led the UX design strategy for a complex payment platform, where I transformed intricate mechanics into user-friendly experiences, and I realized how vital it is to bridge communication between teams, particularly with engineers and compliance experts.

Tackling complex projects often created moments of uncertainty for me. However, these moments drove significant growth as I synthesized user feedback to inform design, established robust UX guidelines, and ensured our designs resonated with users while meeting regulatory requirements.

Collaborating with diverse teams has been thrilling; it has cultivated my ability to present design ideas clearly, transforming them into services that enhance user interactions, especially in environments that demand empathy and precision.

I am eager to embark on the innovative journey at Digital Innovations, where I can continue to influence design in a meaningful way, translating complexity into clarity, ultimately building trust with users across borders.

Thank you for considering my application.

Sincerely,

Jaxon Beltran
