STRENGTHS

- ♥️ **Calm urgent response**
During urgent events, used first aid, CPR, and AED training while protecting scene safety and patient dignity.
- 👁️ **Clear clinical observation**
Trended vital signs and pain findings, then shared meaningful changes so nurses and providers could act quickly.
- ♥️ **Accurate documentation**
Resolved medication record discrepancies before handoff, leaving incoming staff a clearer clinical picture each shift.
- 🧑 **Respectful daily care**
Supported hygiene, mobility, nutrition, and toileting needs with patience, preserving dignity during routine care.
- 🚫 **Infection control**
Kept treatment areas safer through PPE, equipment cleaning, and isolation practices that became part of daily rhythm.

SUMMARY

Licensed Practical Nurse with four years of practical nursing experience across secure residential health and long term care settings. Provides direct patient care, **medication administration**, vital sign monitoring, clinical observation, treatment documentation, and support with **activities of daily living**. Maintains accurate **electronic health records**, completes medication reconciliation, communicates changes in condition, and supports clear shift handoffs. Responds to urgent events with first aid, CPR, and AED training while following scope of practice, infection control procedures, confidentiality standards, and established nursing supervision. Works calmly with registered nurses, providers, multidisciplinary teams, and safety personnel in continuous care environments. Active **Pennsylvania LPN** with practical experience supporting adults with complex medical and behavioral needs.

EXPERIENCE

Licensed Practical Nurse, Secure Residential Health

Keystone Secure Health Partners 📅 July 2024 - Present 📍 York, PA

Provides practical nursing care for adults in a secure residential treatment setting. Supports medication management, **clinical observation**, electronic documentation, urgent response, infection control, and safe communication across continuous care shifts.

- Delivered **direct nursing care** for adults in secure residential treatment, escalating condition changes through clinical channels.
- Administered scheduled medications and reconciled medication records before shift handoff for accurate continuity.
- Trended **vital signs** and pain assessments, then communicated significant findings to nurses and providers.
- Maintained **electronic health records** covering encounters, treatments, responses, and unresolved follow up needs.
- Responded to urgent events with **first aid**, CPR, and AED measures within training and scope.
- Applied PPE, equipment cleaning, and isolation precautions across **treatment areas** and patient care activities.

Licensed Practical Nurse, Long Term Care

Susquehanna Valley Senior Care 📅 October 2022 - June 2024 📍 Lancaster, PA

Managed assigned nursing care for residents with chronic conditions and functional limitations. Coordinated medication passes, treatments, daily care, electronic records, focused assessments, infection prevention, and concise clinical handoffs.

- Managed medication passes, treatments, observations, and daily care for residents with chronic conditions.
- Verified orders and documented medications, treatments, and adverse responses in **electronic health records**.
- Supported **hygiene**, mobility, nutrition, toileting, and daily living needs while preserving resident dignity.
- Performed vital sign checks and focused assessments that informed provider notification and monitoring.
- Maintained clean treatment and medication areas through infection prevention procedures in shared residences.
- Strengthened shift continuity with handoffs covering symptoms, treatment responses, safety concerns, and follow up.

PROJECTS

Secure Care Continuity Initiative 📅 2024

Small details protect continuity. Standardized shift handoff practices connected medication issues, clinical changes, treatment responses, and pending follow up for safer residential care.

MY CAREER

● Licensed Practical Nurse,
Secure Residential Health at
Keystone Secure Health Partners
(2.2 Years)

● Licensed Practical Nurse,
Long Term Care at Susquehanna
Valley Senior Care (1.7 Years)

Residential Infection Control Review 📅 2023

Clean spaces support calm care. Reviewed treatment area routines, PPE use, equipment cleaning, and isolation precautions within a shared healthcare environment.

LEADERSHIP & AWARDS

- Recognized by clinical peers for dependable medication documentation and clear shift handoffs.
- Trusted to remain calm during urgent patient events requiring first aid, CPR, or AED response.
- Selected for consistent support of respectful hygiene, mobility, and daily living care.
