STRENGTHS

Field Reliability

Crew members could count on prepared tools and orderly work areas, especially during early site assignments.

Traffic Awareness

Setting cones near moving vehicles required constant attention, and steady habits helped crews work with confidence.

Equipment Care

Post use cleaning became a useful routine, catching tool concerns before they disrupted a later shift.

Adaptable Support

Daily priorities changed often. Switching from drainage work to grounds upkeep kept assignments moving smoothly.

Public Communication

Clear, respectful updates helped maintain good working relationships with crew members and people near active sites.

SKILLS

Street maintenance

SUMMARY

Municipal **maintenance worker** with four years of hands on experience supporting street, drainage, grounds, facility, and public infrastructure upkeep through October 2026. Clears roadway debris, maintains **storm drains** and sidewalks, supports paving crews, controls traffic, and keeps public work areas orderly. Operates weed eaters, gas mowers, hand tools, and related equipment while completing cleaning, inspection, and routine care. Provides supervised support for basic electrical, plumbing, and HVAC work, following crew direction, written procedures, safety practices, and scheduled priorities. Works reliably around **moving vehicles**, construction activity, confined spaces, warehouses, changing weather, noise, fumes, and physically demanding assignments. Holds a valid **Texas Driver License** and brings dependable communication, local travel readiness, professional conduct, and practical equipment knowledge for safe municipal service delivery.

EXPERIENCE

Municipal Maintenance Worker

Hill Country Public Works Cooperative 📅 September 2024 - Present 📍 San Marcos, TX

Supports daily street, drainage, grounds, facility, and public infrastructure operations across municipal sites. Prepares tools, maintains work areas, supports skilled crew members, and completes routine field assignments with careful attention to safety, schedules, traffic, equipment readiness, and public access.

- Cleared roadway debris and vegetation, keeping public routes open for scheduled maintenance and safe travel.
- Cleaned storm drain inlets and maintained sidewalks, **drainage** paths, and passageways for reliable public access.
- Set cones and signs around street work, supporting **traffic control** near moving vehicles and active crews.
- Operated **weed eaters**, **gas mowers**, hand tools, and yard equipment during grounds maintenance assignments.
- Supported basic **plumbing**, **electrical**, and HVAC tasks by staging materials and following crew instructions.
- Documented equipment concerns and completed assignments, helping supervisors address damaged tools before next shift.

Maintenance Crew Member

Central Texas Infrastructure Services 📅 October 2022 - August 2024 📍 New Braunfels, TX

Performed hands on maintenance across streets, drainage areas, sidewalks, public grounds, and active work sites. Supported paving and skilled trades crews with material staging, **debris removal**, equipment care, **local travel**, public communication, and changing daily priorities.

- Moved materials and debris during street, drainage, sidewalk, and **grounds** assignments across active public sites.
- Cleaned **storm drains** and drainage channels with hand tools, reporting obstructions needing skilled repair.
- Staged paving materials and cleared work zones, helping crews maintain orderly roadway operations.
- Inspected mowers, **yard tools**, and equipment after use, reporting mechanical concerns before service.
- Supported basic plumbing and electrical tasks while preparing materials for **HVAC** maintenance activities.
- Traveled between local work sites, adapting daily priorities while maintaining respectful public communication.

PROJECTS

Storm Drain Readiness Program 📅 2024

LANGUAGES

MY CAREER

- Municipal Maintenance Worker at Hill Country Public Works Cooperative (2.1 Years)
- Maintenance Crew Member at Central Texas Infrastructure Services (1.8 Years)

Supported recurring storm drain cleaning and inspection work across public routes, helping crews keep drainage paths clear, accessible, and ready for scheduled repairs.

Municipal Grounds Equipment Care 📅 2023

Maintained mowers, weed eaters, yard tools, and hand equipment through cleaning, inspection, storage, and timely reporting of service concerns.

LEADERSHIP & AWARDS

- Recognized by municipal crews for dependable support during street, drainage, and grounds assignments.
- Trusted with careful tool preparation, work area housekeeping, and equipment readiness before field shifts.
- Commended for calm traffic awareness and professional communication near active roadway operations.
