Hiring Manager
Horizon Health
Remote

Dear Hiring Manager,

I am thrilled to submit my application for the Medical Coding Team Lead role at Horizon Health, a position that not only resonates with my extensive experience in medical coding but also ignites my passion for leading teams in pursuit of excellence, driving accuracy and compliance with unwavering dedication and enthusiasm.

At Health Solutions, where I currently serve as a Medical Coding Supervisor, I navigate the complexities of managing a talented group of coders, ensuring adherence to optimal coding standards while implementing rigorous training programs, all while achieving an impressive 95% accuracy rate in our codified records, a journey that has shaped my career and inspired my team to excel.

Reflecting on my time at CareFirst Medical, I encountered challenges that tested my resolve and pushed me to innovate; for instance, fostering a collaborative spirit among coders emerged as a solution that significantly improved our processes, manifested in a notable 20% reduction in claim denials, a truly rewarding achievement.

I genuinely believe my role extends beyond mere supervision; my aim is to empower others, cultivate their talents, and foster a culture of continuous improvement, as I relish contributing not just my technical expertise in ICD-10 and CPT coding, but also nurturing an environment of collaboration and communication among healthcare providers to elevate overall performance.

I look forward to the possibility of discussing my candidacy further.

Sincerely,

Li Fowler
