

Diya Nicholson

Medical Laboratory Tech Lead

JULY 20, 2026

Hiring Manager
HealthFirst Labs
Chicago, IL

Dear Hiring Manager,

I am excited to apply for the Medical Laboratory Tech Lead position at HealthFirst Labs. This opportunity connects precisely with my multifaceted experience and fervor for enhancing laboratory excellence, as I hold a solid focus on quality in every test I perform.

My time at HealthBridge Medical helped solidify my enthusiasm and commitment to accurate results and collaboration. Every day posed new challenges, yet I found ways to optimize workflows, enhance communication, and elevate testing protocols alongside my dedicated team, underscoring the importance of our roles in patient care.

Holding multiple certifications and a Bachelor's in Clinical Laboratory Science, I have developed skills that contribute to effective laboratory operations. While I often faced difficulties, I emphasized growth — understanding small errors can lead to bigger challenges in patient outcomes, which encourages me to continuously improve.

As Technical Resource for my colleagues, I empowered them to address issues promptly. I believe that fostering an environment fostering collaboration is pivotal to advancing lab objectives, thus ensuring compliance with all regulatory protocols. My dedication to quality control has yielded measurable outcomes, aiding lab efficiency.

Thank you for considering my application.

Sincerely,

Diya Nicholson
