

Cohen Chambers

Modeling Engineer Intern

AUGUST 08, 2026

Hiring Manager
TechWave Innovations
Irvine, CA

Dear Hiring Manager,

I am eager to submit my application for the Modeling Engineer Intern position at TechWave Innovations, a role that perfectly aligns not only with my current academic pursuits but also with my innovative spirit and determination to contribute meaningfully to advanced engineering solutions.

My experience at University Research Lab has driven my enthusiasm for developing piezoelectric devices; constructing FEM models not only sharpened my analytical skills but also deepened my appreciation for teamwork, as collaborating with peers transformed ideas into tangible advancements.

While navigating complex models can be challenging, I remember a particular project where rigorous statistical analysis revealed critical insights, ultimately leading to a notable efficiency boost in device performance, which greatly boosted my confidence.

I possess proficiency with MATLAB and COMSOL, and I've utilized these tools expertly to cleanse and validate data, ensuring thorough interpretation of results, which I know is crucial in an innovative environment like TechWave.

I am looking forward to the opportunity to leverage my research background while engaging with other talented engineers, particularly in the collaborative setting your team fosters, and I feel this could be a notable match for both TechWave Innovations and myself.

Thank you for considering my application.

Sincerely,

Cohen Chambers
