

Logan Lin

Network Administrator

JULY 09, 2026

Hiring Manager
TechWave Solutions
Jackson, MS

Dear Hiring Manager,

I am eager to apply for the Network Administrator position at TechWave Solutions. This opportunity blends well with my experience in Cisco routing and switching alongside a passion for problem-solving. TechWave's commitment to innovation excites me; it rolls out impactful solutions while adapting in a fast-paced tech environment.

Throughout my professional journey, I tackled varied network challenges, enhancing my skills significantly. At the University Project, I sculpted a simulated network that used Cisco protocols effectively. This effort highlighted my ability to think critically while juggling multiple tasks. Such experiences prepared me to thrive within your esteemed team.

Additionally, during my Bootcamp Project, I executed a range of troubleshooting techniques, honing my skills in addressing real network issues. Collaborative peer reviews sharpened my troubleshooting methodologies, increasing confidence in delivering immediate solutions. This involvement instilled a solid foundation in practical networking that aligns with your needs.

I have always believed in continuous learning. That's why I pursued CCNA certification and explored Cisco DNA, gaining deeper insights into network security management. I strive to remain ahead in technology trends while crafting effective network solutions.

I sincerely appreciate your consideration of my application for this role. Being part of TechWave Solutions would allow me to contribute effectively while advancing my skills. I hope to share my enthusiasm and commitment to your team's success.

Thank you for your time.

Sincerely,

Logan Lin
