STRENGTHS

- 👁 **Pediatric observation**
Focused observations helped identify changes early during supervised care, giving supervising nurses clear information for timely guidance.
- 🗣 **Family communication**
Routine care explanations helped families feel informed, while documented questions kept RN follow up clear and practical.
- ♥ **Safe clinical practice**
PPE, hand hygiene, and equipment cleaning became consistent habits during clinical practice and home care simulations.
- 🛠 **Complex care preparation**
G tube, tracheostomy, and ventilator simulations built confidence with equipment checks, patient observation, and escalation.
- 📌 **Reliable handoffs**
Structured updates gave instructors a concise view of patient status, completed care, safety concerns, and remaining needs.

SKILLS

Pediatric home health

One on one nursing care

G tube care Tracheostomy care

Ventilator care BLS CPR

Plans of care RN oversight

Clinical documentation

Infection prevention PPE

CDC safety guidelines

Patient observation

Family communication

Clinical escalation

SUMMARY

New graduate Licensed Practical Nurse prepared for **pediatric home health** through supervised clinical practice, skills lab training, and patient care simulations. Holds a **New Jersey LPN license**, in person BLS CPR certification, current **TB blood test**, and valid New Jersey driver's license. Clinical preparation includes one on one pediatric care, **plans of care**, patient observation, vital signs, documentation, infection prevention, PPE use, medication safety, and timely communication with supervising Registered Nurses. Practiced G tube care, enteral feeding, tracheostomy fundamentals, ventilator simulation, airway observation, alarm recognition, and escalation of changes in condition. Values consistent relationships with children and families, clear handoffs, safe home practice, and continued growth through precepted training and clinical support.

EDUCATION

Diploma in Practical Nursing

Middlesex College 🎓 GPA: 4.0 📅 2026 📍 Edison, NJ

Coursework: Pediatric nursing, pharmacology, medical surgical nursing, maternal child nursing

TECHNICAL SKILLS

- **Pediatric Nursing:** Pediatric care, Home health, One on one care
- **Clinical Assessment:** Vital signs, Patient observation, Intake and output
- **Enteral Care:** G tube care, Enteral feeding, Tube flushing
- **Airway Care:** Tracheostomy care, Airway observation, Suctioning fundamentals
- **Ventilator Support:** Ventilator care, Alarm recognition, Prescribed settings awareness
- **Infection Prevention:** CDC guidelines, Hand hygiene, Equipment cleaning
- **Personal Protective Equipment:** PPE use, Donning and doffing, Exposure prevention
- **Clinical Documentation:** Care notes, Intake and output, Patient response
- **Emergency Response:** BLS CPR, Pediatric emergencies, Alarm response
- **Medication Safety:** Order verification, Patient identifiers, Allergy checks
- **Care Coordination:** Plans of care, RN communication, Structured handoffs
- **Family Support:** Care explanations, Approved teaching, Caregiver questions

EXPERIENCE

Pediatric Home Care Clinical Practicum Student

Practical Nursing Program 📅 March 2026 - August 2026 📍 New Brunswick, NJ

Completed supervised pediatric and community clinical practice, delivering **one on one care** within defined LPN scope. Supported plans of care, focused assessments, family communication, infection prevention, documentation, **medication safety**, and structured communication with instructors and supervising nurses.

- Delivered supervised one on one pediatric care using approved **plans of care** and defined LPN scope
- Recorded vital signs, intake, output, comfort measures, and observations, escalating changes promptly
- Explained routine care steps to families and documented questions for Registered Nurse follow up
- Applied **PPE**, hand hygiene, equipment cleaning, and CDC aligned **infection prevention** practices
- Verified orders, identifiers, allergies, routes, and documentation during supervised medication administration
- Used structured handoffs covering patient status, completed care, outstanding needs, and safety concerns

Pediatric Complex Care Simulation Student

Student Lab 📅 September 2025 - February 2026 📍 New Brunswick, NJ

English Native

Spanish Intermediate

MY CAREER

● Pediatric Home Care Clinical Practicum Student at Practical Nursing Program (5 Months)

● Pediatric Complex Care Simulation Student at Student Lab (5 Months)

Completed faculty supervised complex care simulations focused on pediatric G tube, tracheostomy, ventilator, BLS, home care planning, documentation, and **escalation**. Practiced safe responses within scope while using RN communication and clinical support.

- Completed **G tube** simulations covering site assessment, feeding setup, flushing, and complication recognition
- Practiced **tracheostomy** care fundamentals through equipment preparation, airway observation, and sterile technique concepts
- Performed ventilator simulations emphasizing prescribed settings, alarm recognition, **patient observation**, and clinician notification
- Demonstrated in person BLS skills through pediatric emergency scenarios and team communication
- Organized mock home care plans around treatments, safety checks, documentation, and RN communication
- Reviewed debriefings covering clinical reasoning, scope boundaries, infection control, and support resources

PROJECTS

Pediatric Home Health Care Planning 📅 2026

Created a supervised pediatric home care plan with G tube tasks, respiratory observations, medication timing, caregiver communication, safety checks, documentation templates, and clear escalation steps for RN oversight.

LEADERSHIP & AWARDS

- Practical Nursing Academic Achievement Award, 2026
- Clinical Skills Recognition, 2026
- Dean's List, 2025

CERTIFICATIONS

- New Jersey Licensed Practical Nurse 📅 2026
- BLS CPR, In Person Provider Course 📅 2026
- TB Blood Test, QF 📅 2026
- Valid New Jersey Driver's License 📅 2026

PROFESSIONAL AFFILIATIONS

- Practical Nursing Peer Skills Group, Peer Practice Coordinator, 2025 to 2026
- Campus Community Health Outreach, Student Volunteer, 2025 to 2026
