STRENGTHS

- 💬 **Customer listening**
Role play conversations started with questions, helping uncover household priorities before presenting a suitable connectivity option.
- 📍 **Field prospecting**
Door to door simulations built comfort with cold introductions, repeated outreach, and respectful follow up in changing conditions.
- ⚙️ **Technical translation**
Router, modem, bandwidth, and Wi Fi explanations became simpler after practice, helping varied audiences follow service choices.
- ♥️ **Accurate records**
Order exercises and CRM practice kept dispositions, contact notes, and next steps organized for smoother follow up.
- 🗣️ **Bilingual service**
English and Spanish scripts made product conversations more accessible, especially when customers needed extra clarity.

SUMMARY

Early career sales candidate with supervised field practice in residential connectivity, consultative selling, prospecting, **product presentations**, and customer follow up. Built practical knowledge of high speed internet, mobile, video, landline phone, routers, modems, wireless devices, smartphones, and **data networking fundamentals** through academic sales projects. Developed territory plans, prioritized leads, completed needs analysis, and documented simulated orders, dispositions, contact notes, and next actions accurately. Bilingual English and Spanish communicator who explains technical options in clear, household friendly language. Comfortable with **door to door** outreach, extended outdoor activity, evening and weekend schedules, independent territory management, and travel between locations. Holds a valid North Carolina driver license, insured reliable vehicle, and current Google Digital Marketing and E commerce Certificate. Ready for customer focused **field sales** work that connects households with practical communication solutions.

MY CAREER

- Residential Connectivity Sales Capstone at University Project (4 Months)
- Direct Sales Field Simulation at Course Project (4 Months)
- Consumer Connectivity Research Project at Student Innovation Lab (4 Months)

Direct Sales Field Simulation

Course Project 📅 August 2025 - December 2025 📍 Raleigh, NC

Completed supervised **field sales** simulation focused on door to door introductions, consultative discovery, product education, pipeline activity, and accurate order processing.

- Completed **door to door** introductions, consultative discovery, product education, and closing conversations during field simulations.
- Planned daily activity around assigned leads and evening availability, documenting contact attempts and next actions.
- Used smartphone and web based sales applications for service review, interaction notes, and order processing.
- Explained Wi Fi coverage, router placement, modem function, and device connectivity for varied customer scenarios.
- Developed bilingual sales scripts covering benefits, qualifying questions, and transaction details with conversational flexibility.
- Presented **prospecting** plans, call notes, proposals, and order simulations, earning strong faculty feedback.

Consumer Connectivity Research Project

Student Innovation Lab 📅 January 2025 - May 2025 📍 Raleigh, NC

Conducted supervised connectivity research examining household service choices, equipment questions, recommendation scenarios, customer communication, and independent project delivery.

- Investigated household selection of internet, mobile, video, and voice services using 42 survey responses.
- Organized needs around remote learning, streaming, gaming, mobile data, and multi device Wi Fi use.
- Tested routers, modems, **smartphones**, and **wireless devices**, documenting common setup questions in a lab.
- Produced a comparison guide explaining speed, reliability, device connectivity, and bundled service considerations.
- Presented findings to classmates, answering questions through consultative communication centered on household needs.
- Maintained research notes and shared deliverables, meeting deadlines with limited supervision and instructor feedback.

PROJECTS

Residential Territory Sales Plan 📅 2026

Created a complete simulated territory plan for 180 households, connecting lead prioritization, door to door outreach, needs analysis, follow up, competitive review, and connectivity recommendations.

Bilingual Connectivity Presentation 📅 2025

Prepared English and Spanish product presentations explaining internet, mobile, video, voice, routers, modems, wireless devices, and service tradeoffs for household audiences.
