STRENGTHS

- 👥 **Crew direction**
Set clear daily priorities for eight employees, and crews stayed focused when weather or flight activity changed.
- ♥ **Safety coordination**
Radio checks and controlled access planning kept maintenance work aligned with air traffic and airfield operations.
- 🚚 **Equipment judgment**
A loader, grader, or plow was selected with purpose, helping crews finish seasonal work without avoidable delays.
- 💬 **Employee coaching**
Regular feedback, training records, and practical follow up helped newer employees gain confidence in demanding assignments.
- ⚙️ **Operational readiness**
Preventive checks and supply control kept vehicles, tools, and materials available when urgent work arrived.

SKILLS

Shop supervision
Airfield maintenance
Asphalt repair Concrete repair
Snow removal
Pesticide application
Heavy equipment
Radio communication
Employee coaching

SUMMARY

Pavements and grounds maintenance supervisor with nine years of progressive experience across airfield, roadway, grounds, and facility operations, including more than four years directing crews in safety sensitive environments. Plans shop priorities, assigns work, coaches employees, tracks hours, leave, licensing, training, and safety requirements, and coordinates maintenance windows with airfield operations and air traffic personnel. Directs asphalt and concrete repairs, runway and ramp upkeep, **snow removal**, mowing, **pesticide application**, fencing, signs, striping, equipment care, **supply control**, and vehicle maintenance. Operates loaders, graders, bulldozers, and specialized equipment when staffing or operational needs require. Holds a current Class B Commercial Driver License with endorsements, a Colorado pesticide supervisor license, and OSHA construction safety training. Supports secure facility operations through clear radio communication, sound judgment, and dependable **on call** response.

EXPERIENCE

Pavements and Grounds Supervisor

Summit Airfield Services 📅 March 2022 - Present 📍 Colorado Springs, CO

Directs an eight person pavements and grounds crew supporting airfield, roadway, parking, and secure facility assets. Owns daily priorities, employee development, work scheduling, equipment readiness, and cross trade coordination while protecting flight operations and safe access.

- Directed eight person crew priorities around weather, flight operations, **safety** limits, and maintenance demand.
- Established employee goals, **coaching** plans, **licensing** records, leave tracking, and documented performance follow up.
- Scheduled pavement, snow, mowing, fencing, sign, and striping work with airfield operations stakeholders.
- Supervised asphalt and concrete repairs on ramps, roads, and parking surfaces during staffing shortages.
- Trained new hires and documented **corrective actions** through established performance improvement procedures.
- Coordinated equipment readiness, vehicle maintenance, supplies, and support for structural, electrical, and control work.

Lead Grounds and Pavement Technician

Rocky Plains Aviation Maintenance 📅 July 2019 - February 2022 📍 Pueblo, CO

Led field assignments for aviation **grounds and pavement** technicians, translating daily priorities into safe work sequences, equipment assignments, radio coordination, and documented completion. Combined hands on maintenance with peer guidance and seasonal readiness planning.

- Led aviation field assignments through safe sequencing, equipment allocation, and documented completion checks.
- Operated loaders larger than 1.5 yards, graders, bulldozers, and **snow removal** equipment.
- Used **radio** communication with airfield operations before entering controlled work areas and changing work windows.
- Completed **asphalt patching**, concrete repairs, striping, signs, fencing, mowing, and seasonal snow response.
- Tracked equipment condition and arranged preventive repairs before critical seasonal operations began.
- Applied pesticides under site procedures and maintained treatment and safety records for grounds work.

MY CAREER

● Pavements and Grounds Supervisor at Summit Airfield Services (4.6 Years)

● Lead Grounds and Pavement Technician at Rocky Plains Aviation Maintenance (2.6 Years)

● Transportation Maintenance Technician at High Country Infrastructure Services (2.4 Years)

● Grounds and Facilities Technician at Mountain West Facilities Cooperative (1.2 Years)

Maintained roadways, parking areas, drainage edges, grounds, and paved surfaces through work orders and inspection findings. Supported seasonal response, mobile equipment operations, pavement restoration, traffic control, fencing, signage, and shop readiness.

- Prioritized roadway and parking repairs through documented work orders and inspection findings.
- Operated loaders, graders, dump trucks, and mobile equipment for grading and material movement.
- Restored asphalt and concrete defects through preparation, placement, compaction, and finishing methods.
- Supported rotating snow and ice response with equipment inspections and material documentation.
- Constructed fencing, installed signs, and applied pavement markings beside active work areas.
- Inspected vehicles, identified service needs, and organized tools and supplies for response readiness.

Grounds and Facilities Technician

Mountain West Facilities Cooperative 📅 September 2015 - December 2016 📍 Fort Collins, CO

Performed supervised grounds and facility maintenance across a multi building campus, building early expertise in surface repair, equipment operation, snow response, inventory control, and cross trade work. Supported dependable service through scheduled and seasonal assignments.

- Completed mowing, surface repairs, fence work, signs, and seasonal cleanup from work orders.
- Prepared asphalt patches and concrete repairs while staging materials and compact equipment.
- Built loader experience through supervised operation, inspections, spotter procedures, and site traffic controls.
- Maintained shop tools, vehicles, and material inventories while reporting mechanical concerns promptly.
- Supported winter snow response by clearing priority routes and documenting equipment condition.
- Coordinated work areas with structural and electrical trades during **facility maintenance** assignments.

PROJECTS

Secure Airfield Seasonal Readiness 📅 2022

Coordinated pavement repairs, snow response, mowing, equipment checks, and radio controlled work windows for active aviation areas. Work sequencing protected access and supported reliable seasonal operations.

Heavy Equipment Operations Program 📅 2021

Operated loaders, graders, bulldozers, and snow equipment across runway adjacent and facility maintenance assignments. Pre use inspections and planned servicing supported safe, dependable production.

LEADERSHIP & AWARDS

- Recognized by aviation operations leadership for dependable coordination during high priority seasonal maintenance windows.
- Selected to guide newer technicians through heavy equipment checks, pavement work, and safe controlled area access.
- Trusted with crew scheduling, performance follow up, and urgent maintenance decisions during staffing shortages.

EDUCATION

Associate of Applied Science in Construction Management Technology

Pikes Peak State College 🎓 GPA: 3.5 📅 2015 📍 Colorado Springs, CO

Coursework: Construction safety, site supervision, materials management, equipment operations

CERTIFICATIONS

- Commercial Driver License Class B with endorsements 📅 2026
- Colorado Qualified Supervisor Pesticide License 📅 2024
- OSHA 30 Hour Construction Safety 📅 2023

TECHNICAL SKILLS

- **Pavement Repair:** Asphalt patching, concrete repair, compaction
- **Airfield Maintenance:** Runway upkeep, ramp maintenance, flight line access
- **Grounds Maintenance:** Mowing, seasonal cleanup, pesticide application
- **Heavy Equipment:** Front end loaders, bulldozers, road graders
- **Snow Operations:** Snow removal, ice response, plow operations
- **Site Infrastructure:** Security fencing, sign installation, pavement striping
- **Fleet Maintenance:** Vehicle inspections, equipment servicing, repair coordination
- **Workforce Supervision:** Crew scheduling, performance goals, corrective action
- **Safety Compliance:** OSHA construction safety, controlled access, pre use inspections
- **Operations Communication:** Air traffic radio, airfield coordination, work windows
- **Materials Control:** Supply inventories, work orders, material tracking
- **Facility Trades:** Structural support, high voltage support, industrial control systems

PROFESSIONAL AFFILIATIONS

- Colorado maintenance and facilities professional network participant, sharing practical approaches to pavement, grounds, and equipment readiness.
- Airfield operations coordination partner, supporting safe access, radio communication, and work window planning around active aviation areas.
