Hiring Manager
Ivy Care Therapy
Bloomington, IN

Dear Hiring Manager,

I am thrilled to apply for the Pediatric Occupational Therapist position at Ivy Care Therapy, believing fervently that my diverse experiences and devotion to nurturing children dovetail seamlessly with your mission to tailor individualized care plans, enhancing the well-being of each young patient while supporting their families creatively and compassionately.

In my recent role as a Pediatric Occupational Therapist Intern, I developed unique treatment plans, enhancing patient engagement by up to thirty percent, while collaborating with peers to create invaluable educational resources aimed at empowering parents, thus integrating therapy's goals within their home routines, helping them facilitate their children's growth in everyday environments.

I recall moments when children forged connections during therapy, transforming challenges into triumphs, solidifying my commitment to personalized care as I witnessed the joyous impact of our joint efforts through smiles and newfound abilities.

Throughout my journey, I embraced challenges, discovering best practices alongside mentors and using innovative tools like ScribelQ, which not only improved documentation efficiency but generously allocated more time towards the patients themselves, prioritizing their needs above all else.

Furthermore, my dedication resonates through my consistent involvement in community outreach programs, tirelessly advocating for pediatric therapy services, demonstrating the profound need for awareness and access to quality care, thus echoing Ivy Care's commitment to excellence.

I appreciate your consideration.

Sincerely,

Lana Atkinson
