STRENGTHS

- 👥 **Public Service**
At a busy permit desk, clear explanations helped applicants leave with practical next steps and greater confidence.
- ♥️ **Document Control**
Careful intake and organized files kept reviewers working from current information. Colleagues could find needed records quickly.
- 🔗 **Routing Coordination**
When submissions raised questions, direct follow up resolved missing documents before routine processing slowed down.
- 📋 **Records Accuracy**
Source document checks caught discrepancies early, keeping automated permit records useful for staff and applicants.
- ✅ **Permit Issuance**
After confirming approvals, clear issuance steps gave contractors and residents a straightforward path forward.

SUMMARY

Permit Technician with two years of administrative and technical experience supporting public facing building permit services, including more than one year processing applications within a municipal building division. Handles document intake, **administrative completeness** reviews, permit issuance, project routing, automated records, status reporting, and organized file maintenance. Explains **application procedures**, routine policies, documentation needs, and processing status clearly to residents, contractors, applicants, property owners, and design professionals. Coordinates submissions across building and related review functions, resolves missing information, and keeps applicants informed through each step. Holds **International Code Council** Permit Technician Certification and a valid **California Class C driver's license**. Brings accurate data entry, thoughtful customer service, and dependable records control to municipal permit operations.

EXPERIENCE

Permit Technician

Valley Ridge Building Services 📅 August 2025 - Present 📍 Turlock, CA

Supports front counter and electronic permit operations for residential and commercial submissions. Owns application intake, administrative review, authorized issuance, records accuracy, reporting, and communication across municipal review functions. Progressed into independent processing while building stronger judgment around documentation, routing, and customer needs.

- Reviewed residential and commercial applications for completeness before routing packages through appropriate municipal review functions.
- Maintained applicant, project, fee, routing, and status **records** in automated permitting systems for dependable information.
- Issued authorized permits after confirming approvals and documentation, then explained next steps and required materials.
- Coordinated submissions across building and related review groups, resolving missing documents before routine processing delays.
- Explained **procedures** and status updates to **contractors**, owners, designers, and residents using clear service focused language.
- Generated operational **reports** and organized electronic files, supporting workload tracking and efficient document retrieval.

Permit Services Assistant

Central Valley Permit Support 📅 October 2024 - July 2025 📍 Modesto, CA

Supported a public facing **permit services** desk handling construction documents, applicant questions, automated records, status logs, and routine reporting. Built practical knowledge of construction terminology and permit workflows through supervised document review, accurate **data entry**, and daily coordination with contractors, property owners, and municipal staff.

- Supported construction **document intake** while explaining routine **procedures** and escalating technical code questions to reviewers.
- Reviewed forms and supporting materials for basic completeness, organizing document sets for established routing workflows.
- Entered applicant and project information into automated systems, correcting discrepancies against source documents before review.
- Maintained permit files and status logs, helping staff locate current documents during applicant inquiries.
- Prepared routine **reports** and correspondence using consistent naming practices that improved continuity across staff members.
- Built construction terminology knowledge through daily contact with contractors, property owners, and municipal staff.
