

Akira Bowman

Petroleum Engineer

AUGUST 13, 2026

Hiring Manager
Fossil Energy Solutions
Greeley, CO

Dear Hiring Manager,

I am truly excited to express my interest in the Petroleum Engineer position at Fossil Energy Solutions; this role feels like a perfect match for my evolving skills and ambitions, as I aspire to delve into impactful projects that shape the industry while enjoying a collaborative team atmosphere.

In engaging with this opportunity, I have connected the technical challenges presented in this role with my previous experiences that include troubleshooting complex systems and optimizing drilling techniques in diverse academic projects, all while cultivating a passion for problem-solving that keeps my motivation high, regardless of the obstacles.

During an internship in 2025, I played a vital role in a capstone project that not only improved drilling efficiency through simulation software but also honed my ability to work under pressure and communicate effectively with peers and mentors, showcasing my adaptability in fast-paced environments—skills essential for this position.

As a member of the Society of Petroleum Engineers, I have consistently sought to enhance my knowledge while volunteering for workshops aimed at fostering sustainable practices, as I recognize that environmental considerations significantly influence all facets of engineering today.

Now, as I prepare for graduation from Colorado State University in May 2026, my eagerness to contribute innovative ideas and practical solutions becomes even more potent, as I truly believe that collaboration and diverse perspectives fuel the best outcomes in any engineering effort.

Thank you for your consideration

Sincerely,

Akira Bowman
