SUMMARY

Experienced Pharmacy Technician with over 2 years in sterile compounding within fast-paced environments. Proven track record in following strict adherence to USP guidelines for sterile IV compounding, consistently assuring patient safety and quality assurance. Supported the preparation of diverse dosage forms including injectables and creams, implementing rigorous aseptic techniques such as proper sterile gowning and sampling. Recognized for maintaining compliant, clean workspaces and effectiveness in team collaboration to optimize workflow. Eager to contribute expertise in a telehealth-focused compounding pharmacy while fostering partnerships.

EXPERIENCE

Pharmacy Technician

Compounding Pharmacy 📅 March 2025 - Present 📍 Orlando, FL

Role focused on performing daily sterile IV compounding according to industry guidelines and supporting compliance and quality assurance efforts.

- Conduct daily sterile IV compounding per USP 797 and USP 800 standards, ensuring high levels of safety and quality.
- Prepare various dosage forms like injectables and creams based on concise formulations, supporting effective medication therapy.
- Implement best practices in sterile gowning, contamination prevention, and maintain a9 compliant working environment.
- Monitor compounding areas through thorough cleaning routines and environmental checks, upholding regulatory commitments.
- Verify ingredient accuracy and clarity in calculations and labeling to guarantee complex compounding meets required specifications.
- Collaborate closely with pharmacists and fellow technicians to enhance operational efficiencies and improve overall workflow.

Pharmacy Technician

HealthCare Innovations 📅 January 2025 - February 2025 📍 Kissimmee, FL

Focused on assisting with sterile compound preparations while enhancing patient interactions and workflow strategies.

- Assisted in preparing sterile compounds, emphasizing the importance of maintaining an aseptic environment.
- Supported accurate inventory management, ensuring proper stock levels and sterilization of pharmaceutical products.
- Interacted with patients to address inquiries regarding medications, advocating for improved patient relationships.
- Participated actively in team meetings, driving dialogue around critical enhancements in patient safety protocols.
- Accurately documented compounding tasks and procedures, aligning closely with state regulations for pharmacy operations.
- Completed online training courses, fortifying knowledge on up-to-date best practices relevant to pharmacological care.

LEADERSHIP & AWARDS

- Certified Pharmacy Technician Award for exceptional performance in sterile compounding, 2025.
- Quality Assurance Achievement - Recognized for maintaining outstanding standards of cleanliness and compliance in pharmacy practice, 2025.
