STRENGTHS

- ♥ **Secure care judgment**
During housing unit emergencies, assessed risk quickly and coordinated treatment with nurses and security personnel.
- 📄 **Clinical documentation**
Complete notes connected assessments, plans, referrals, education, and responses, giving physicians dependable clinical context.
- 💬 **Patient education**
Adjusted explanations for health literacy and psychosocial needs, helping patients follow treatment plans with greater confidence.
- 👥 **Team supervision**
Delegated nursing support during demanding encounters, and colleagues relied on clear escalation guidance when conditions changed.
- 🚑 **Emergency response**
BLS based action and calm communication supported timely stabilization, transfer decisions, and safer care delivery.

Staff Supervision
Professional Boundaries BLS

SUMMARY

Board certified **nurse practitioner** with 8 years and 4 months of advanced practice experience across **correctional health**, urgent care, community medicine, and complex ambulatory care. Provides direct and indirect care for acute, chronic, behavioral, psychosocial, and **mental health needs** in secure clinical settings. Evaluates patients during intake, clinic visits, infirmary care, and **housing unit emergencies**, then orders diagnostics, initiates treatment, coordinates referrals, and documents complete plans of care. Maintains active Idaho APRN licensure, Family Nurse Practitioner certification, and BLS certification. Applies sound clinical judgment, confidentiality, patient consent rights, Universal Precautions, infection control, controlled medication procedures, and professional boundaries. Leads emergency response, supervises nursing staff, and coordinates physicians, nurses, patients, and security personnel during demanding clinical situations.

EXPERIENCE

Nurse Practitioner, Correctional Health

Summit Secure Health Partners 📅 January 2024 to Present 📍 Nampa, Idaho

Provides advanced practice care for adults in a secure correctional environment, supporting intake, clinic, infirmary, emergency, medication, referral, and on call operations. Leads clinical decisions within scope, physician guidance, and **institutional safety** requirements while coordinating nurses, physicians, patients, and security personnel.

- Evaluated intake patients and **housing unit emergencies**, initiating treatment and physician consultation when indicated.
- Ordered laboratory studies and **diagnostic procedures**, then coordinated referrals for patients needing higher level care.
- Led emergency stabilization with nursing and **security personnel**, applying physician approved **therapeutic regimens** safely.
- Documented assessments, care plans, referrals, education, and intervention responses while protecting confidential records.
- Applied controlled medication, sharps, key control, infection prevention, and **Universal Precautions** requirements daily.
- Delegated nursing assignments during high acuity encounters and on call periods using clear escalation criteria.

Family Nurse Practitioner

Treasure Valley Urgent Care Group 📅 May 2021 to December 2023 📍 Boise, Idaho

Managed same day urgent care for adults with acute illness, minor injury, medication concerns, and chronic disease exacerbations. Combined focused assessment, diagnostics, prescribing, **patient education**, emergency transfer decisions, and clinical direction during busy weekday and weekend operations.

- Managed same day visits for acute illness, minor injury, medication concerns, and chronic conditions.
- Interpreted laboratory results and diagnostic studies, guiding **treatment plans** and appropriate referral decisions.
- Initiated emergency stabilization and arranged hospital transfer for patients needing advanced resources.
- Prescribed medications within scope, addressing controlled substance rules, contraindications, consent, and education.
- Explained **therapeutic regimens** and warning signs, adapting communication for varied health literacy needs.
- Directed nurses and medical assistants during high volume operations, reinforcing **infection control** and escalation guidance.

MY CAREER

0
MONTHS

Nurse Practitioner, Adult Primary Care

Riverbend Community Health Center 📅 July 2019 to April 2021 📍 Twin Falls, Idaho

Delivered longitudinal adult primary care across acute, chronic, behavioral, and preventive needs. Managed independent caseloads, developed evidence based plans, coordinated specialty referrals, and sought physician input for complex findings and treatment changes.

- Managed adult patients with hypertension, diabetes, respiratory illness, behavioral needs, and acute conditions.
- Built care plans from examinations, laboratory findings, medication histories, and patient goals.
- Coordinated specialty **referrals** and diagnostic follow up for abnormal findings across care settings.
- Counseled patients on medications, disease management, prevention, consent, confidentiality, and **professional boundaries**.
- Maintained safe examination spaces through **infection control** practices during heightened communicable disease precautions.
- Escalated complex presentations to **physicians** while strengthening independent **clinical judgment** through organized caseload management.

Registered Nurse, Ambulatory Care

Mountain West Medical Clinic 📅 June 2018 to June 2019 📍 Pocatello, Idaho

Provided direct ambulatory nursing care while completing graduate preparation for advanced practice. Built assessment, emergency response, documentation, referral coordination, medication reconciliation, and patient education skills across diverse adult clinical presentations.

- Performed focused assessments, medication reconciliation, specimen collection, and **patient education** for adult patients.
- Escalated abnormal findings promptly, giving physicians concise status updates and relevant clinical information.
- Supported urgent events through **BLS** response, emergency equipment preparation, and focused provider communication.
- Documented symptoms, interventions, education, and follow up instructions in accurate medical records.
- Applied **Universal Precautions** and **infection control** procedures across equipment, specimens, and examination areas.
- Coordinated referrals and diagnostic appointments, strengthening continuity practices used in advanced practice care.

PROJECTS

Correctional Emergency Readiness 📅 2026

Supported facility readiness through emergency response coordination, staff escalation guidance, safety procedures, and clinical documentation for demanding secure care events.

Controlled Medication Safety 📅 2023

Strengthened medication decisions through controlled substance awareness, consent focused education, accurate records, and careful coordination with clinical teams.

LEADERSHIP & AWARDS

- Recognized by correctional health leadership for calm clinical judgment during high acuity patient events.
- Commended by clinical peers for clear documentation, patient education, and reliable referral coordination.
- Selected to provide nursing oversight during stressful encounters and on call clinical coverage.
