

Brayden Manning

Physicist - Radiation Oncology

AUGUST 17, 2026

Hiring Manager
Lakeside Medical Center
Sioux Falls, SD

Dear Hiring Manager,

I am eager to express my profound interest in the physicist position within your Radiation Oncology Department at Lakeside Medical Center, as this opportunity resonates deeply with my educational background, hands-on experience, and unwavering commitment towards patient-centered innovations that truly enhance healthcare delivery.

Throughout my academic and practical journey, I consistently partnered with esteemed physicists during critical projects, charting innovative solutions that not only elevated treatment protocols but also underscored my capacity to seamlessly collaborate within multidisciplinary teams, driving patient care to unprecedented heights.

During my tenure as a Graduate Research Assistant, I proudly contributed to advancements in image-guided radiation therapies, taking on meaningful responsibilities that empowered my colleagues and helped enhance the treatment plans for numerous patients encountering formidable health challenges.

My experience might reveal an audacious confidence, but I recognize the weight of responsibility that comes with such roles, and I embrace opportunities for growth and development with enthusiasm, ensuring that I proactively strive toward board eligibility in radiation oncology physics during the next five years.

I look forward to the possibility of discussing how my skills and experiences align with your team's needs.

Thanks,

Brayden Mannin
