STRENGTHS

- 💡 **Donor Assessment**
Reviews histories, symptoms, vital signs, and focused findings carefully, helping teams make safer suitability decisions.
- 💡 **Clear Education**
Explains consent, risks, immunizations, and follow up in plain language, then checks comprehension through conversation.
- 💡 **Calm Response**
During unexpected symptoms, assesses promptly, follows approved care steps, and brings medical support in without delay.
- 🔒 **Confidential Care**
Protects sensitive health information during interviews, charting, and reactive result counseling, earning trust from patients and donors.
- ✅ **Operational Readiness**
Keeps supplies, emergency kits, forms, and clinical spaces ready; coworkers often rely on this steady habit.

SKILLS

Donor Suitability Assessment

Medical History Review

Focused Physical Assessment

Heart and Lung Assessment

Donor Interviews

Informed Consent Education

Immunization Administration

Limited Emergency Care

Laboratory Result Review

Electronic Donor Systems

SOP Compliance OSHA

SUMMARY

Licensed practical nurse with three years of clinical experience supporting donor facing and ambulatory healthcare services. Performs **medical history review**, focused physical assessments, vital signs, heart and lung assessments, confidential interviews, informed consent education, immunization administration, **limited emergency care**, and clinical escalation within licensure and approved procedures. Applies SOP criteria when reviewing screening and laboratory information, documenting donor suitability decisions in electronic health records and donor information systems. Communicates reactive findings with sensitivity, protects confidential information, maintains **emergency kit readiness**, and follows OSHA, **Health Safety and Environmental**, infection control, privacy, and center safety requirements. Calm, clear patient education and positive donor relations support safe operations, accurate documentation, and respectful follow up for every individual served.

EXPERIENCE

Donor Health Technician, LPN

Desert Bloom Donation Services 📅 May 2025 - Present 📍 Las Vegas, NV

Supports regulated donor collection operations through health histories, focused assessments, eligibility interviews, electronic documentation, immunization services, **emergency response**, and physician escalation. Provides calm education while protecting donor confidentiality and center readiness.

- Conducted donor histories and focused **physical assessments** within regulated collection workflows, documenting findings electronically.
- Reviewed laboratory results against **SOP criteria**, identifying suitability concerns and routing questions for physician review.
- Explained **informed consent**, risks, adverse events, voluntary participation, and follow up requirements using clear language.
- Provided **limited emergency care** within LPN scope, then escalated concerning symptoms through approved clinical channels.
- Administered approved immunizations while checking supplies, **expiration dates**, documentation, and standing protocol requirements.
- Counseled donors about reactive screening results, deferral decisions, and appropriate community follow up resources.

Licensed Practical Nurse

Silver Sage Community Clinic 📅 January 2024 - April 2025 📍 North Las Vegas, NV

Delivered ambulatory **nursing** care through focused assessments, medication and immunization services, patient education, electronic documentation, emergency readiness, and timely communication with physicians and registered nurses.

- Performed focused assessments, **vital signs**, **medication reconciliation**, and symptom screening for scheduled adult visits.
- Administered medications and immunizations under **provider orders**, recording lot details, responses, education, and follow up.
- Recognized abnormal findings and communicated concise clinical updates for timely provider evaluation and escalation.
- Used **teach back** education for procedures, medications, preventive care, and follow up instructions during visits.
- Checked emergency supplies and expiration dates, keeping clinical rooms prepared for unexpected patient events.
- Followed OSHA, privacy, **infection control**, and clinic SOP requirements during accurate electronic documentation.

MY CAREER

● Donor Health Technician, LPN at Desert Bloom Donation Services (1.4 Years)

● Licensed Practical Nurse at Silver Sage Community Clinic (1.2 Years)

● Student Practical Nurse, Supervised Clinical Placement at Mojave Vocational Nursing Clinic (4 Months)

Mojave Vocational Nursing Clinic 📅 August 2023 - December 2023 📍 Las Vegas, NV

Completed supervised outpatient clinical training in adult assessment, medication safety, documentation, patient communication, emergency response, and privacy focused information gathering under instructor guidance.

- Completed supervised rotations in adult assessment, **vital signs, medication safety**, documentation, and patient communication.
- Practiced heart and lung assessments under instructor supervision, reporting abnormal findings through structured communication.
- Conducted supervised interviews covering medical history, medications, symptoms, and safety concerns with **confidentiality**.
- Prepared medications and immunizations under training scope, applying verification, documentation, and **infection control** steps.
- Recorded assessment findings and education in electronic charts, correcting entries after faculty review.
- Demonstrated **emergency response** fundamentals through simulations, deterioration recognition, support activation, and supply readiness.

PROJECTS

Donor Immunization Readiness 📅 2026

Supported immunization workflow planning through protocol review, supply checks, expiration monitoring, documentation practice, and clear donor education. Work centered on safe, respectful clinical service.

Emergency Kit Audit Workflow 📅 2025

Built a practical review routine for emergency kit supplies, expiration dates, room readiness, escalation contacts, and documentation. The approach helped keep response preparation visible during busy clinic operations.
